Higman, Brian James Hudson, 2009 Jamaican place names range from the commonplace to the bizarre. Densely distributed across the map of the island, they not only intrigue the visitor and the resident but also provide clues to Jamaica's past landscapes and its social and economic history. Written from a historical and geographical perspective by two authors with an intimate knowledge of the island, this book presents an entirely new approach to the study of Jamaican place names. Maps and other sources dating from the earliest years of European contact to the twenty-first century are used to compile a database of over 20,000 names. Analysis provides clues to the culture and national origins of the dominant planter population who were the major name givers but also includes many names with distinctive Jamaican creole meanings. Today Kingston, May Pen, Rio Bueno, Me No Sen, You No Come, George's Plain, Mountain, and Content names derived from a variety of sources are all equally Jamaican and equally fascinating. *Jamaican Place Names* is written for both the scholar and the general reader with an interest in the island's landscapes and history.
