**The Dictionary of Blue and White Printed Pottery 1780-1880** Arthur Wilfred Coysh, R. K. Henrywood, 1982 This dictionary brings together as many facts as possible about blue and white printed pottery at the height of its popularity and production. The authors have produced a comprehensive guide covering every possible aspect of the subject with Appendices which include makers' initial marks and a list of source books used by makers. The discovery that prints could be transferred to porcelain and pottery helped transform the ceramics industry. Inevitably the market demand at the end of the nineteenth century for brightly coloured wares put an end to this extraordinary potting endeavour but the interest of collectors has never declined. This book was awarded the Library Association's 1982 McCollin Medal for an outstanding reference book. It is the first of a two-volume set having been supplemented in 1989 by a separate and entirely new companion volume containing additional entries and further information. This is a first class reference book. *Antique Collectors THE DICTIONARY OF BLUE AND WHITE PRINTED POTTERY 1780-1880* ARTHUR WILFRED COYSH (RICHARD K.), 1982 **The Dictionary of Blue and White Printed Pottery 1780-1880** Arthur W. Coysh, 1989 *The Oxford Handbook of Industrial Archaeology* Eleanor Casella, Michael Nevell, Hanna Steyne, 2022-05-12 Representing the first substantial English language text on Industrial Archaeology in a decade, this handbook comes at a time when the global impact of industrialization is being reassessed in terms of its legacy of climate change, mechanization, urbanization, the forced migration of peoples and labour relations. Critical debates around the beginning of a new geological era, the Anthropocene, have emerged over the last decade. This approach interrogates the widespread exploitation of natural resources that forged industrialization from its early emergence in 18th century northern Europe to its contemporary ubiquity, environmental impacts and social legacy within our globalized world. Through a broad international and multi-period set of chapters, this volume explores the complex origins, processes and development of industrialization through both its physical remains and human consequences, both the good and the bad. It provides a diverse material framework for understanding our modern world from its industrial origins through its future paths in the 21st century. Familiar Past? Sarah Tarlow, Susie West, 2002-01-08 The Familiar Past surveys material culture from 1500 to the present day. Fourteen case studies grouped under related topics include discussion of issues such as the origins of modernity in urban contexts, the historical anthropology of food, the social and spatial construction of country houses, the social history of a workhouse site, changes in memorial forms and inscriptions, the archaeological treatment of gardens. The Familiar Past has been structured as a teaching text and will be useful to students of history and archaeology. **Writing as Material Practice** Kathryn E. Piquette, Ruth D. consumption Fifteen case studies explore the artefactual nature of writing the ways in which materials techniques colour scale orientation and visibility inform the creation of inscribed objects and spaces as well as structure subsequent engagement perception and meaning making Covering a temporal span of some 5000 years from c 3200 BCE to the present day and ranging in spatial context from the Americas to the Near East the chapters in this volume bring a variety of perspectives which contribute to both specific and broader questions of writing materialities The authors also aim to place past graphical systems in their social contexts so they can be understood in relation to the people who created and attributed meaning to writing and associated symbolic modes through a diverse array of individual and wider social practices
