## Dictionary Of Maqiao:

**A Dictionary of Maqiao** Shaogong Han, 2003 A fictionalized account of the author's experiences growing up in a small village in rural China during the Cultural Revolution      **Remapping the Past** Howard Yuen Fung Choy, 2008 This study investigates how writers of Deng Xiaoping's China undermined the grand narrative of official history by rewriting the past It showcases fictions of history by eleven Chinese Muslim and Tibetan authors in terms of spatial schemes of fictional historiography      *The Facts on File Companion to the World Novel* Michael Sollars, Arbolina Llamas Jennings, 2008

Global Elements in Chinese Literature Sihe Chen, 2022-11-28 How has modern Chinese literature emerged from the collision of domestic social upheaval foreign inspiration and sparks of creative genius during the past century Sihe Chen explores this question from a global perspective analysing how Chinese authors assimilated Western literary movements to create new forms of expression adapted to a society in rapid transformation The author then examines these global influences in the works of selected contemporary Chinese novelists and poets He shows that the problems these writers confront are common to all peoples and that Chinese literature expresses not only the story of China but also that of humanity      **More Than Words** Sierra Abbott, 2023      **Leaving the World to Enter the World** Mark Leenhouts, 2005 Leaving the World to Enter the World focuses on the fictional and theoretical writings of Han Shaogong one of the most striking voices in contemporary Chinese literature Han played a central role in the root seeking trend that dominated the literary scene of the People's Republic of China in the mid 1980s His work has won him acclaim from a wide range of readers in Chinese and other languages a highlight being the 1996 novel Dictionary of Maqiao Critics have labeled Han the leader of a nationalist movement in search of a cultural identity Mark Leenhouts shows that Han's role is much more complex demonstrating that his literary practice is a highly individual creative continuation of Chinese tradition Han's personal style transcends the narrow boundaries of root seeking as it has been portrayed in literary histories and criticism to date This rectification of the one sided image of Han Shaogong has profound implications for the significance of root seeking literature and for questions of tradition and modernity that have been among the most hotly debated topics in Chinese literary intellectual and political thought throughout the 20th century Leaving the World to Enter the World does justice to the individuality of the literary author by taking the intrinsic structure of the literary work as its starting point Leenhouts close textual analysis as intelligent and pragmatic as it is sensitive will help counterbalance the socio political orientation typical of much recent research By seeing Han Shaogong as a writer rather than a mouthpiece of historical forces this book opens up new perspectives for enjoying his literary mastery      **Annali**, 2002      **Zhuangzi and Modern Chinese Literature** Jianmei Liu, 2016 This is a powerful account of how the ruin and resurrection of Zhuangzi in modern China's literary history correspond to the rise and fall of modern Chinese individuality By examining the twentieth century reinterpretation and appropriation of Zhuangzi the author explores modern Chinese writers' complicated relationship with tradition      **Rain Taxi**

**Review of Books** ,2003      **The Bulletin** ,2004      **Chinese Literature, Essays, Articles, Reviews** ,2003      **Book Review Index** ,2004 Every 3rd issue is a quarterly cumulation      World Authors, 2000-2005 Jennifer Curry,2007

Claren,2002 Chinese literature one of the world s oldest and richest and consisting originally of poetry and later of drama and fiction may be divided into three major historical periods that roughly correspond to those of Western literary history the classical period from the 6th century BC to the 2nd century AD the medieval period from the third century to the late 12th century and the modern period from the 13th century to the present This book presents an overview of Chinese literature as well as a comprehensive bibliography primarily of English language sources accessed by subject author and title indexes      China's Transformations Lionel M.
