Despair Sickness Or Sin Hopelessness And Healing In The Christian Life:

Despair : Sickness Or Sin? Mary Louise Bringle,1990 Despair Sickness or Sin is a book likely to prove both timely and timeless Bringle did not write with an eye to capitalizing upon the current discussions in our society of the many patterns of pain centering on a sense of personal emptiness or lack of self worth Nonetheless her astute analysis of despair has profound implications both for understanding and for treating eating disorders substance abuse sexual obsessiveness and various types of withdrawing or compulsive behaviors These features make hers a timely book in our present context On the other hand Bringle s study traces the history of a discussion regarding the dynamics and etiology of despair which draws on the rich language of psychologies that long antedate the post Freudian and humanistic psychological categories in which these matters are chiefly discussed today She makes us recall that psyche is the Greek term for soul and that psychology as the logos or seasoned science of the soul properly deals with the spiritual and faith dimensions of alienation isolation and feelings of resigned impotence In retrieving the thinking of theologians and spiritual interpreters from the third through the twentieth centuries she offers a timeless contribution to our understanding of a universal dynamic of the soul as interpreted in dialogue with Christian traditions excerpts from the Foreword by James W Fowler *Teaching Religion and Healing*

Linda L. Barnes,Inés M. Talamantez,2006-10-12 The study of medicine and healing traditions is well developed in the discipline of anthropology Most religious studies scholars however continue to assume that medicine and biomedicine are one and the same and that when religion and medicine are mentioned together the reference is necessarily either to faith healing or bioethics Scholars of religion also have tended to assume that religious healing refers to the practices of only a few groups such as Christian Scientists and pentecostals Most are now aware of the work of physicians who attempt to demonstrate positive health outcomes in relation to religious practice but few seem to realize the myriad ways in which healing pervades virtually all religious systems This volume is designed to help instructors incorporate discussion of healing into their courses and to encourage the development of courses focused on religion and healing It brings together essays by leading experts in a range of disciplines and addresses the role of healing in many different religious traditions and cultural communities An invaluable resource for faculty in anthropology religious studies American studies sociology and ethnic studies it also addresses the needs of educators training physicians health care professionals and chaplains particularly in relation to what is referred to as cultural competence the ability to work with multicultural and religiously diverse patient populations

Wu Wei, Negativity, and Depression Siroj Sorajjakool,2014-06-11 Discover a pastoral approach to depression that combines Eastern wisdom and Western science Wu Wei Negativity and Depression reveals a way to break the cycle of depression not by denying it or fighting it but by the ancient principle of wu wei non trying The bleak cycle of depression starts when people experience negativity They turn inward to try to find self esteem but the negativity strips all the power of self affirmation from them The gap between is and ought how they see themselves and how they want to be is

too great to bridge The cycle known as self regulatory perseveration means that depressed persons are caught in a desperate fruitless search for affirmation Instead of self esteem they find self criticism and further negative thoughts Yet they keep looking and looking and looking The more they look for self worth inside the less they find and the harder they try the cycle continues When trying simply doesn t work wu wei the principle of letting go may help break that cycle When trying simply doesn t work wu wei not trying may help Wu wei is the principle of letting go By giving up on the self imposed and unattainable oughts and shoulds the depressed person stops focusing on self Wu wei breaks the cycle of negativity allowing the depressed person to begin to heal Wu Wei Negativity and Depression offers a comprehensive discussion of depression including epidemiology of depression etiology and biological causes psychosocial theories standard treatments of the past and present pastoral care of depressed persons This important book constructs a possible approach to depressed souls weary of fighting and trying to fix themselves Wu Wei Negativity and Depression can bring new hope to those who most need it

Miller-McLemore, Brita L. Gill-Austern, 1999 In the last decade the focus of pastoral theology has shifted

dramatically from care defined as counseling to care understood within a wider social political and religious context Feminist and womanist theory as well as feminist and womanist faith convictions have played a key role in this development According to the authors feminists and womanists in pastoral theology have begun to reconstruct the definitions parameters and commitments of pastoral care and counseling These changes have critical implications for care within congregations and for the understanding of theology in seminaries and divinity schools Yet these developments in the theory and practice of pastoral theology and their broader ramifications have not been carefully analyzed or even acknowledged by pastoral theologian minister and religion scholar alike This is due to a failure to articulate clear understandings of the field the gap between congregational ministry and higher education in religion and conflicts in theological education in general over the place of practice and theory experience spirituality and practical theology To redress these problems this collection of essays has a threefold aim First the book identifies the many changes occurring in definitions of pastoral theology care and counseling Second the volume defines and develops new methods and approaches Third the authors attend to the implications of these changes for congregational care and theological education Roughly speaking the order of the chapters in this volume follows this threefold agenda moving from an exploration of the changes in pastoral theology to its reconstruction to some of the implications of recent innovations

The Pulse of Creation Paul R. Sponheim, 1999 Paul Sponheim's theme is transformation personal social cultural and global He addresses the violence environmental destruction and lost sense of self that plague modern society In response he finds a genuine desire among Americans for both individual and social transformation He suggests however that we may have lost sight of the Creator's call for us to join in the work of creation through direct partnership with others not just with other Christians in nurturing change Sponheim claims the ecstatic power of religion for individual and social transformation and explores how the human status as creature entails responsibility to God in the drama that creation constitutes In central chapters on Interruption Calling and Relationship he clearly shows how transformation takes place through our participation in God's ongoing creative work

Christian Science Sentinel, 1899 **The Christian Science Journal**, 1903 Seeing Children, Seeing God Pamela D.

Couture, 2000 In Seeing Children Seeing God Pamela Couture explores the actual and potential relation of the church and the theological school to economically and socially relationally poor children She argues that the solution to the problem of child poverty requires the shared responsibility of individuals families neighborhoods congregations governments businesses and international organizations because children develop within these multiple systems With their unique access to these multiple systems churches and theological schools are in a wonderful position to transform the social ecology within which children develop and to assist in children's flourishing Concretely what would it mean for the caring ministries of the church and those who teach and learn about them in seminary to make the issue of children and poverty central to what we do How would this change the way we live Pamela Couture argues from a Wesleyan perspective that caring for poor children is a

means of grace a grace that deepens our experience as the adopted children of God She draws explicitly on recent writings that have updated the Wesleyan theological tradition Seeing Children Seeing God will be of particular interest to everyone who is concerned about children and poverty especially from a Wesleyan perspective Key Features Brief and accessible Offers a constructive theologically sound response to the problem of children and poverty Recognizes and shares responsibility for solutions across society but especially with the church and the seminary Key Benefits Readers will understand the dynamics and extent of the problem of children living in poverty today Readers will understand ways in which theology has undergirded efforts to deal with this problem in the past Readers will understand and identify with the specifically Christian imperative to respond to this problem Readers will understand how various groups can contribute to a concerted effort to deal with the problem Readers will understand how the church has failed to deal with this problem in the past
