Desperately Seeking Sisterhood Still Challenging And Building:

Desperately Seeking Sisterhood Magdalene Ang-Lygate, Millsom S. Henry, Chris Corrin, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company **Embracing Sisterhood** Katrina Bell McDonald, 2007 Embracing Sisterhood describes the contemporary state of the black woman collective and explores the legacy of black sisterhood in these times Through an examination of how these ideas are articulated and experienced in the population McDonald determines the relative degree of black sisterhood and black step sisterhood that exists among African American women today **The Doctoral Journey as an Emotional, Embodied, Political Experience** Rebecca Twinley, Gayle Letherby, 2021-12-28 The Doctoral Journey as an Emotional Embodied Political Experience is the first text of its kind to capture stories of involvement in doctoral journeys from students supervisors and examiners Drawing from experiences across a variety of disciplines in the social sciences medical sciences education and the humanities these stories share a keenness to demonstrate the ways in which this journey is emotional rather than detached embodied rather than separated and political rather than having no relationship to politics The journey metaphor is often adopted to describe and explore the PhD process However this journey is usually only seen from the perspective of the doctoral candidate This implies that it is only the student that learns develops and reflects This is clearly not always maybe never the case The suggestion that the candidate learns whilst the supervisors teach harks back to traditional masculinist educational approaches and neglects the reciprocal knowledge sharing process between student and supervisor Similarly the prescription that relationships between all concerned remain professional and removed rather than in any way intimate suggest an unrealistic acceptance of an scientific detached objective agenda rather than an emotional embodied political and holistic approach to research The contributions to this book extend the journey metaphor to additionally consider the experiences of supervisors and examiners including the joint collaborative journey of the team the candidate their supervisors and their examiners This provides a challenge to traditional understandings of the doctoral process and offers implications for future reflection and practice This book is therefore an invaluable resource for doctoral students supervisors examiners and readers interested in pedagogy and educational practice *The Cultures of Alternative Mobilities* Phillip Vannini, 2016-03-16 The Cultures of Alternative Mobilities presents a series of ethnographic studies focusing on the local cultures of mobilities and immobilities emphasizing the everyday sense of contingency and heterogeneity that accompanies them Compensating for the excess of theory and criticism based on the notion of hypermobilities this book sheds light on the nuanced differences and idiosyncrasies of mobility with a view to rediscovering meanings and lifestyles marked by movement and immobility Original empirical and global case studies are presented by an international team of scholars exploring the complex negotiated and contingent nature of the social worlds of movement By avoiding sweeping generalizations on the deeply connected and readily mobile nature of society as a whole this volume sheds light on the diversity of mobility modes in an accessible and interdisciplinary

form that will be of key interest to sociologists geographers and scholars of human mobility communication and culture
