Destroyer Campbeltown:

The Destroyer Campbeltown Al Ross, 1990 The destroyer Campbeltown is most famous for her part in the commando raid on the St Nazaire drydock in 1942 Built as the USS Buchanan DD131 and later renamed Campbelton she was one of over 270 flush decked destroyers put into service towards the end of World War I When Britain appealed to America in 1940 for the transfer of fifty vessels for anti submarine duty Buchanan was one of the first gift horses to be transferred The Anatomy of the Ship Series This highly acclaimed series aims to provide the finest documentation of individual ships and ship types ever published What makes the series unique is a complete set of superbly executed line drawings both the conventional type of plan as well as explanatory perspective views This is the first attempt to document a ship literally down to the nuts and bolts These drawings are accurate visually exciting and totally comprehensive offering ship buffs historians and modelmakers a novel insight into the technicalities of each ship type covered *Town Class Destroyers* John Henshaw, 2018-05-31 Early in World War II fifty obsolete US Navy destroyers were transferred to the Royal Navy in return for a 99 year lease on British bases in the Caribbean Bahamas and Newfoundland Though they were obsolete and far from ideal they played a vital role in the Royal Navy's campaign This is their complete story Topics covered include the background to the acquisition of the ships the Battle of the Atlantic their specification and design and modifications in RN service operations and achievements such as the St Nazaire raid and finally losses and accidents This authoritative text is supported by many contemporary photographs and twenty eight detailed plans prepared specially for this book Superbly illustrated with fifty contemporary black white photographs and twenty eight plans specially drawn by the author *The Allied Assault on Hitler's Channel Island Fortress* John Grehan, 2023-04-06 Incredible as it may seem today detailed plans were drawn up to recapture the Channel Islands the most heavily fortified of all the German occupied territories regardless of the potentially severe loss of life and the widespread destruction to the property of the British citizens Under the codenames Constellation Condor Concertina and Coverlet the islands of Jersey Guernsey and Alderney were to be attacked in 1943 The operation against Alderney would be preceded by a bombardment by between 500 and 600 medium light bombers and an astonishing forty to fifty squadrons of fighters The official papers which have now become available state that The islands cannot be taken without causing some civilian casualties In the case of Alderney it is thought that the air bombardment will have to be on such a scale that all personnel on the island will have to become casualties A similar number of aircraft would attack Guernsey while for the assault upon Jersey thirty one squadrons of heavy bombers and strike aircraft would bombard the island's east and west coasts This would be followed on D Day by parachute and infantry landings and then a commando assault in the south west On Day 2 of the operation the first of the tanks were to land with more armor and infantry to follow on subsequent days As the German garrison of the Channel Islands was some 40 000 strong the islands would be turned into an enormous battlefield and a vast killing ground The consequences for the Islanders were almost too

horrendous to imagine and the political fallout beyond calculation if the operations failed in their objectives after the devastation and loss of British lives that the fighting had caused Despite all this it was thought that such operations would become the second front so persistently demanded by Stalin to draw German troops from the Eastern Front and might also help the Allied forces which were about to invade Italy Operation Husky from North Africa Equally the Channel Islands would be the ideal base for the D Day invasion of France scheduled for 1944 There was much then in favor of mounting the operations against the Channel Islands regardless of the fact that it meant the death of untold British citizens at the hands of British troops and the Allied air forces The Allied Assault Upon Hitler s Channel Island Fortress is therefore the first detailed analysis of what would have been the most controversial operation ever undertaken by the British and American armed forces

St Nazaire 1942 Ken Ford,2011-03-15 A richly illustrated examination of the British raid on the port of St Nazaire one of the most daring actions of World War II The port lies at the mouth of the River Loire and in 1942 as well as a U Boat base contained the massive Normandie dock the only facility on the Atlantic coast large enough to accommodate the German pocket battleship Tirpitz This book tells the story of the raid that denied the use of the dock to the Tirpitz the sister ship of the Bismarck and constituted a crucial victory for the British Combined Operations in the Battle of the Atlantic

Total Germany David Wragg,2016-11-01 Covers the Second World War Operations of the Royal Navy in One Concise Volume On the declaration of war in 1939 the British Admiralty signaled all warships and naval bases Total Germany Total Germany It was fortunate that of Germany s three armed services the Kriegsmarine under Grosseradmiral Erich Raeder was the least well prepared They had not expected to fight all out war for another two to three years While Admiral Karl D nitz s U boat force was to give the Allies much anxiety Hitler was never comfortable or competent in his handling of naval surface forces The all important technological breakthroughs that played so crucial a role particularly in the Battle of the Atlantic are given due weight Total Germany is a concise yet comprehensive account of the Royal Navy s part in the war at sea and the measures taken to ensure victory It examines the markedly different approaches taken by the warring countries and reviews the differing strategies and tactics of the various theaters such as the Far East Mediterranean Atlantic and Arctic It also addresses the influence of individual commanders on the outcome of the war at sea Total Germany is a first class read that covers World War II operations in one concise volume Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home

The British "Chariot" Operation Francesco Mattesini, 2025-10-02 This book offers a meticulously detailed account based on British records and previously unpublished German documents of the British Navy's daring attack on the German naval base at Saint Nazaire on the French Bay of Biscay coast carried out on 27-28 March 1942 The operation aimed to destroy the massive dry dock crucial to German naval capabilities Through a careful analysis the author concludes that the British commando raid achieved only a partial success At the time propaganda from both sides shaped the legacy of the Saint Nazaire raid The British hailed it as a remarkable triumph celebrated in military circles as the greatest raid of all Conversely German accounts portrayed it as a failed assault marked by devastating losses for the attackers and an impregnable fortress that held firm Of the 621 British personnel involved including sailors and commandos 171 lost their lives 232 were captured and 222 were evacuated by surviving motor launches and two destroyers Yet the German defenders also paid a heavy price suffering approximately 140 fatalities including 42 in combat and nearly 90 from the explosion of the destroyer *Campbeltown* and 127 wounded A compelling re-examination of a pivotal World War II operation this work reveals the complex truth behind myths of victory and defeat

British Warship Losses in the Modern Era David Hepper, 2022-07-31 This important new reference work details all those ships and vessels of the Royal Navy large and small which were lost by accident or enemy action during the twentieth century from the end of the First World War to the last years of the century In all the fates of over 2 000 ships and small craft are covered from aircraft carriers and battleships to motor launches harbour tenders and tugs Those vessels hired or purchased for wartime service such as trawlers paddle steamers and yachts are also listed During wartime ships are lost it is their purpose to go in harm's way Hostile gunfire torpedoes and mines were established threats throughout the period while

the increasing threat of air attack and the introduction of weapons employing new technology such as influence triggered mines homing torpedoes or air launched guided weapons added to the risks of operating in a hostile environment Ships operating in extremely hazardous conditions such as at Dunkirk in 1940 or Singapore in 1942 suffered heavy losses in brief concentrated conflicts but the long continuous campaigns such as the Atlantic convoys or the constant need to sweep for mines also took their toll Peacetime losses are dominated by submarine casualties demonstrating the dangerous character of that service To this may be added the hazardous nature of the sea itself when ships are lost in heavy weather sometimes human error or plain foolishness may play a part The core of the book is taken up by those losses experienced during the Second World War but peacetime losses and more recent conflicts such as the Falklands War of 1982 are included Arranged chronologically every entry notes the outline details of the vessel identifies the Commanding Officer where known and gives a full and often harrowing account of the circumstances of the loss and the number of casualties The details come from extensive original research using primary source material wherever possible particularly the relevant War Diaries and the collected loss and damage reports casualty reports and reports of proceedings now in the National Archives Wartime losses of the Dominions are included to ensure completeness This comprehensive record of warship losses from all causes suffered by the Royal Navy over the past one hundred years is the first single volume work on the subject and represents a major milestone in naval research and publishing
