Detail Practice Timber Construction:

Wood Construction, Principles-practice-details National Committee on Wood Utilization (U.S.),Dudley Frank Holtman,1929 **Building with Hardwood** Konrad Merz,Anne Niemann,Stefan Torno,2021-07 The worldwide booming timber construction sector and its rapid development beyond the limits of high rise buildings demands high performance materials which are made possible by hardwood Innovative production methods and manufacturing processes create economically competitive products that open up completely new possibilities for the construction sector thanks to an almost forgotten building material For it was not without reason that construction sector used predominantly hardwood until the 18th century Building with hardwood focuses on its use in the supporting structure The publication provides specialist knowledge for the safe handling of hardwood in building construction and shows successful examples of architecture from practice for practice Materials for Architects and Builders Arthur Lyons,2014-08-21 *Materials for Architects and Builders* provides a clear and concise introduction to the broad range of materials used within the construction industry and covers the essential details of their manufacture key physical properties specification and uses Understanding the basics of materials is a crucial part of undergraduate and diploma construction or architecture related courses and this established textbook helps the reader to do just that with the help of colour photographs and clear diagrams throughout This new edition has been completely revised and updated to include the latest developments in materials research new images appropriate technologies and relevant legislation The ecological effects of building construction and lifetime use remain an important focus and this new edition includes a wide range of energy saving building components *Single Family Houses* Christian Schittich,2012-12-17 The private single family house is still very much the preferred choice of home Yet in recent years there have been many changes not only in the personal situations of the residents their expectations and desires but also in the rising costs of energy and raw materials This has meant that issues such as multi functionalism the use of innovative building materials or energy efficient building methods are increasing in significance In this completely revised and expanded second edition these topical developments have been taken into consideration The organisation and layout of the first volume with its concise and detailed project documentation has been retained The authors introduce floor plan solutions using contemporary projects which bear in mind changing family structures At the same time the contributions provide an in depth introduction to planning single family houses from the design of the floor plan to useful tips for the realisation In addition to this fundamental information 22 projects are documented providing ideas and inspiration for planners students and clients The international selection of projects highlights current trends in planning and designing single family housing and reveals the tried and tested basics Plaster, Render, Paint and Coatings Alexander Reichel,Anette Hochberg,Christine Köpke,2005-06-28 Plastering colors and coatings help characterize surfaces determine the impression a room makes create light effects This volume uses international examples to present innovative solutions on this theme Expert authors describe

and define the essential principles drawing attention to points to be aware of Architectural Details 2003 Detail Magazine,2016-01-08 This is a compilation of the full year s information including the Discussion section where well known architects and critics as well as specialist authors and architectural historians articulate their views the Documentation section containing an analysis of selected projects in which buildings from around the world are covered in depth and the Technology section where the specific theme of each issue of the magazine is treated in greater depth Along with these are illustrations of the high standards that Detail is known for where all plan drawings are true to scale and have been approved by the architects planners and engineers responsible for the original design This annual sourcebook is a beautiful record not only of the year s Detail publication but of some of the best and most innovative contemporary architecture **Building and Engineering News** ,1925 **Timber Framing** Henry Dievendorf Dewell,1917 American Builder ,1925 **Handbook of Building Construction** George Albert Hool,1920 Industrial-arts Magazine ,1920 **Timber Construction Manual** American Institute of Timber Construction,1966 *Industrial Arts and Vocational Education* ,1920 **Architect and Engineer of California** ,1925 *Architect and Engineer* ,1925 *Structural Details* Henry Sylvester Jacoby,1909 **Western Machinery and Steel World** ,1916 *Tall Wood Buildings* Michael Green,Jim Taggart,2025-04-11 Tall wood buildings have been at the foreground of innovative building practice in urban contexts for a number of years From London to Stockholm from Vancouver to Melbourne timber buildings of up to 20 storeys have been built are under construction or being considered This dynamic trend was enabled by developments in the material itself prefabrication and more flexibility in fire regulations The low CO2 footprint of wood often regionally sourced is another strong argument in its favour This publication explains the typical construction types such as panel systems frame and hybrid systems An international selection of 17 case studies is documented in detail with many specially prepared construction drawings demonstrating the range of the technology For this expanded edition a new outlook chapter has been added as well as eight cutting edge projects among them Haut Amsterdam EDGE S dkreuz Berlin and Sara Cultural Centre in Sweden **Fire Tests of Building Columns** Associated Factory Mutual Fire Insurance Companies,1919 *The Architectural Forum* ,1929
