Detection Of Heresy In Late Medieval England

Ian Forrest

Detection Of Heresy In Late Medieval England:

The Detection of Heresy in Late Medieval England Ian Forrest, 2005-10-20 Heresy was the most feared crime in the medieval moral universe By examining the drafting publicizing and implementing of new laws against heresy in the 14th and 15th centuries this text presents a general study of inquisition in medieval England **The Culture of Inquisition in Medieval England** Mary Catherine Flannery, Katie L. Walter, 2013 Groundbreaking essays show the variety and complexity of the roles played by inquisition in medieval England Inquisition in medieval and early modern England has typically been the subject of historical rather than cultural investigation and focussed on heresy Here however inquisition is revealed as playing a broader role in medieval English culture not only in relation to sanctions like excommunication penance and confession but also in the fields of exemplarity rhetoric and poetry Beyond its specific legal and pastoral applications inquisitio was a dialogic mode of inquiry a means of discerning producing or rewriting truth and an often adversarial form of invention and literary authority The essays in this volume cover such topics as the theory and practice of canon law heresy and its prosecution Middle English pastoralia political writing and romance As a result the collection redefines the nature of inquisition's role within both medieval law and culture and demonstrates the extent to which it penetrated the late medieval consciousness shaping public fame and private selves sexuality and gender rhetoric and literature Mary C Flannery is a lecturer in English at the University of Lausanne Katie L Walter is a lecturer in English at the University of Sussex Contributors Mary C Flannery Katie L Walter Henry Ansgar Kelly Edwin Craun Ian Forrest Diane Vincent Jenny Lee James Wade Genelle Gertz Ruth Ahnert Emily Steiner Pastoral Care in Medieval England Peter Clarke, Sarah James, 2019-08-06 Pastoral Care the religious mission of the Church to minister to the laity and care for their spiritual welfare has been a subject of growing interest in medieval studies This volume breaks new ground with its broad chronological scope from the early eleventh to the late fifteenth centuries and its interdisciplinary breadth New and established scholars from a range of disciplines including history literary studies art history and musicology bring their specialist perspectives to bear on textual and visual source materials The varied contributions include discussions of politics ecclesiology book history theology and patronage forming a series of conversations that reveal both continuities and divergences across time and media and exemplify the enriching effects of interdisciplinary work upon our understanding of this important topic *Wycliffite Spirituality* J. Patrick Hornbeck (II), Stephen E. Lahey, Fiona Somerset, 2013 In one series the original writings of the universally acknowledged teachers of the Catholic Protestant Eastern Orthodox Jewish and Islamic traditions have been critically selected translated and introduced by internationally recognized scholars and spiritual leaders Until now the mainstream historiography of Wycliffism has largely ignored the positive spirituality that Wycliffite dissenters associated with their faith Even anthologies of Wycliffite writings have focused on their key polemical tenets rather than their spirituality Wycliffite Spirituality offers a new refreshing approach with a collection of texts showing that Wycliffites were as keenly

interested in the spiritual life as many of their contemporaries and that Wycliffites reflected at length on such questions as how best to live a virtuous active life in the world how most appropriately to approach God in prayer how to understand traditional prayers such as the Our Father and Ave Maria and how to live up to Christ's expectations for ministers and others in the church Wyclif's writings on spirituality the English texts composed by his followers and records from heresy trials that disclose information about suspects spiritual practices and devotional lives reveal that late medieval dissenters practiced a vibrant Christianity deserving of further study Book jacket

Current Trends in the Historiography of Inquisitions

Autori Vari, 2023-12-13T15:58:00+01:00 This volume launches the book series of Inquire International Centre for Research on Inquisitions of the University of Bologna a research network that engages with the history of religious justice from the 13th to the 20th century This first publication offers twenty chapters that take stock of the current historiography on medieval and early modern Inquisitions the Spanish Portuguese and Roman Inquisitions and their modern continuations Through the analysis of specific questions related to religious repression in Europe and the Iberian colonial territories extending from the Middle Ages to today the contributions here examine the history of the perception of tribunals and the most recent historiographical trends New research perspectives thus emerge on a subject that continues to intrigue those interested in the practices of justice and censorship the history of religious dissent and the genesis of intolerance in the Western world and beyond

A Companion to Lollardy Mishtooni Bose, Fiona Somerset, J. Patrick Hornbeck II, 2016-02-15

The last twenty five years have seen an explosion of scholarly studies on lollardy the late medieval religious phenomenon that has often been credited with inspiring the English Reformation In A Companion to Lollardy Patrick Hornbeck sums up what we know about lollardy and what have been its fortunes in the hands of its most recent chroniclers This volume describes trends in the study of lollardy and explores the many individuals practices texts and beliefs that have been called lollard Joined by Mishtooni Bose and Fiona Somerset Hornbeck assesses how scholars and polemicists literary critics and ecclesiastics have defined lollardy and evaluated its significance showing how lollardy has served as a window on religion culture and society in late medieval England

The Abbots and Priors of Late Medieval and Reformation England Martin

Heale, 2016-09-08 The importance of the medieval abbot needs no particular emphasis The monastic superiors of late medieval England ruled over thousands of monks and canons who swore to them vows of obedience they were prominent figures in royal and church government and collectively they controlled properties worth around double the Crown's annual ordinary income Moreover as guardians of regular observance and the primary interface between their monastery and the wider world abbots and priors were pivotal to the effective functioning and well being of the monastic order The Abbots and Priors of Late Medieval and Reformation England provides the first detailed study of English male monastic superiors exploring their evolving role and reputation between the fourteenth and sixteenth centuries Individual chapters examine the election and selection of late medieval monastic heads the internal functions of the superior as the father of the community

the head of house as administrator abbatial living standards and modes of display monastic superiors public role in service of the Church and Crown their external relations and reputation the interaction between monastic heads and the government in Henry VIII s England the Dissolution of the monasteries and the afterlives of abbots and priors following the suppression of their houses This study of monastic leadership sheds much valuable light on the religious houses of late medieval and early Tudor England including their spiritual life administration spending priorities and their multi faceted relations with the outside world The Abbots and Priors of Late Medieval and Reformation England also elucidates the crucial part played by monastic superiors in the dramatic events of the 1530s when many heads surrendered their monasteries into the hands of Henry VIII

Constructing a Civic Community in Late Medieval London David Harry,2019 An examination of the growth of civic power in the turbulent arena of late medieval London In the late fourteenth century London s government through mismanagement and negligence experienced a series of crises Relationships with the crown were tested competing factions sought to wrest power from the hands of the once all powerful victualling guilds revolt in the streets in 1381 targeted the institutions of royal as well as civic power and between 1392 and 1397 King Richard removed the liberties of the city and appointed his own wardensto govern in place of the mayor of London This book examines the strategies employed by the generation of London aldermen who governed after 1397 to regain control of their city By examining a range of interdisciplinary sources including manuscript and printed books administrative records accounts of civic ritual and epitaphs the author shows how by carefully constructing the idea of a civic community united by shared political concerns and spiritual ambitions a small number of men virtually monopolised power in the capital More generally this is an exploration of the mentalities of those who sought civic power in the late Middle Ages and provokes the question whygovern and for whom

DAVID HARRY is Lecturer in History at the University of Chester *Saints Edith and Æthelthryth - Princesses, Miracle Workers, and Their Late Medieval Audience* Mary Dockray-Miller,2009 This work narrates the lives of two Anglo Saxon princesses who were venerated as saints long after their deaths It features two poems composed at Wilton Abbey in the early 15th century which allow us to see how late medieval religious women practiced their devotion to early medieval women saints

What is a Lollard? J. Patrick Hornbeck II,J. Patrick Hornbeck,2010-07-29 J Patrick Hornbeck II explores the wide range of lollard beliefs on some of the key issues in late medieval Christianity He argues that the beliefs of individual dissenters were conditioned by a number of social textual and cultural factors

Discipline and Diversity Ecclesiastical History Society. Summer Meeting,2007 New essays on a central dichotomy of history and theology the need to reconcile the diversity of the Church with a unifying discipline

Image, Text and Church, 1380-1600 Colin Richmond,Linda Clark,Maureen Jurkowski,2009

Recording Medieval Lives Julia Boffey,Virginia Davis,2009

The British National Bibliography Arthur James Wells,2005

Who's who in Late Medieval England Michael A. Hicks,1991 This is part of an eight volume series providing short biographies of men and women from Roman to Victorian times Each entry places the

subject in the context of their age and evokes what was distinctive and interesting about their personality and achievement

Late Medieval England, 1399-1509 A. J. Pollard, 2000 England's last medieval century was characterised by social stability economic development and cultural vigour which laid the foundations for the emergence of early modern society Placing the English experience within the vital context of the British Isles the book ranges from the reign of Henry IV to the closing of the middle ages during the reign of Henry VIII

Late Medieval England (1377-1485) Joel Thomas Rosenthal, 2003 The volume represents the second part of Rosenthal's cataloging of historical scholarship on Ricardian Lancastrian and Yorkist England covering categories from political and legal history to social and intellectual history and the arts As Rosenthal notes in the introduction its size 1 888 entries for the decade hardly gives much support to those who warn us of the imminent demise of the more traditional lines of historical endeavor and inquiry

Gender and Authority in the Late Medieval Church Ian Forrest, 2025-06-15 *Gender and Authority in the Late Medieval Church* asks a deceptively simple question How did the governance of the medieval institutional church remain exclusively male despite plentiful evidence of women being as capable and devout as men The remarkable endurance of an all male clergy is an important element of medieval church government one that is frequently taken for granted in the historiography and is connected to another overlooked feature of episcopal authority the strategies that bishops used to secure the compliance of a relatively autonomous clergy As Ian Forrest shows bishops kept their clergy in check through normative standards of masculinity that necessarily disqualified women from leadership roles Everywhere in the medieval church were women who had the capacity the resources and often the ambition to take part in governance from abbesses to priests servants mothers sisters and unofficial wives Bringing together evidence of female activity at the margins of the institutional church Forrest argues that the male monopoly on formal power was haunted by female capability and aspiration at every turn Drawing on case studies from the English diocesan clergy between the mid thirteenth and early sixteenth centuries he explores how women's involvement in governance was rendered unthinkable through the very discursive strategies that bishops used to control their male clergy In doing so *Gender and Authority in the Late Medieval Church* tells an integrated history that explains how both the exclusion of women and the inclusion of men underpin a rigidly gendered system of religious governance

Women and Religion in Medieval England Diana Wood, 2003 Nuns and devout noblewomen were sometimes celebrated for their achievements in the literature of the medieval period but more often than not these women only appear on the side lines of history while the ordinary wife and mother is virtually invisible These papers written by historians and archaeologists discuss the religious devotion and spiritual life of medieval women from all walks of life From an analysis of the architecture and economic organisation of nunneries to an assessment of the medieval Church's response to the pain and perils of childbirth these papers consider the influence of the church on the lives of women and the influence that women had on the life and worship of the Church

Trustworthy Men Ian Forrest, 2018-07-10 The medieval church was founded on and

governed by concepts of faith and trust but not in the way that is popularly assumed Offering a radical new interpretation of the institutional church and its social consequences in England Ian Forrest argues that between 1200 and 1500 the ability of bishops to govern depended on the cooperation of local people known as trustworthy men and shows how the combination of inequality and faith helped make the medieval church Trustworthy men in Latin *viri fidedigni* were jurors informants and witnesses who represented their parishes when bishops needed local knowledge or reliable collaborators Their importance in church courts at inquests and during visitations grew enormously between the thirteenth and fifteenth centuries The church had to trust these men and this trust rested on the complex and deep rooted cultures of faith that underpinned promises and obligations personal reputation and identity and belief in God But trust also had a dark side For the church to discriminate between the trustworthy and untrustworthy was not to identify the most honest Christians but to find people whose status ensured their word would not be contradicted This meant men rather than women and usually the wealthier tenants and property holders in each parish Trustworthy Men illustrates the ways in which the English church relied on and deepened inequalities within late medieval society and how trust and faith were manipulated for political ends

As recognized, adventure as without difficulty as experience more or less lesson, amusement, as with ease as accord can be gotten by just checking out a ebook **Detection Of Heresy In Late Medieval England** next it is not directly done, you could take even more vis--vis this life, all but the world.

We have the funds for you this proper as without difficulty as simple way to get those all. We find the money for Detection Of Heresy In Late Medieval England and numerous books collections from fictions to scientific research in any way. accompanied by them is this Detection Of Heresy In Late Medieval England that can be your partner.
