Detective In American Fiction Film And Television:

The Detective in American Fiction, Film, and Television Jerome H. Delamater, Ruth Prigozy, 1998-04-16 The detective as a preeminent figure in all forms of American popular culture has become the subject of a variety of theoretical exploration By investigating that figure these essays demonstrate how the genre embodies all the contradictions of American society and the ways in which literature and the media attempt to handle those contradictions Issues of class gender and race the interaction of film and literature and generic evolution are fundamental to any understanding of the American detective in all of his or her forms Beginning with essays about Raymond Chandler s treatment of women Part I concentrates on writers of the genre whose detectives embody aspects of American culture in the 20th century Through examination of the work of Elmore Leonard Chester Himes Sue Grafton and others these essays look at the influence of film on literature how ethnicity affects the genre s conventions and gender issues Part II looks closely at specific detectives in the media and demonstrates how the film detective has gone from one who upholds the moral order to one who contributes to the continuation of evil A study of television detectives confirms the necessity of formula and variation to sustain a detective over many seasons *Television Program Master Index* Charles V. Dintrone, 2014-02-11 This work indexes books dissertations and journal articles that mention television shows Memoirs autobiographies biographies and some popular works meant for fans are also indexed The major focus is on service to researchers in the history of television Listings are keyed to an annotated bibliography Appendices include a list of websites an index of groups or classes of people on television and a list of programs by genre Changes from the second edition include more than 300 new shows airing on a wider variety of networks 2000 plus references more than double the second edition and a large increase in scholarly articles The book provides access to materials on almost 2300 shows including groundbreaking ones like *All in the Family* almost 200 entries cult favorites like *Buffy The Vampire Slayer* 200 plus entries and a classic franchise *Star Trek* more than 400 entries for all the shows The shows covered range from the late 1940s to 2010 *The Walking Dead* References range from 1956 to 2013 *American Masculinities: A Historical Encyclopedia* Bret Carroll, 2003-10-14 This is a highly recommended purchase for undergraduate medium sized and large public libraries wishing to provide a substantial introduction to the field of men s studies Reference User Services Quarterly Pleasing layout and good cross references make Carroll s compendium a welcome addition to collections serving readers of all ages Highly recommended CHOICE An excellent index well chosen photographs and illustrations and an extensive bibliography add further value *American Masculinities* is well worth what would otherwise be too hefty a price for many libraries because no other encyclopedia comes close to covering this growing field so well *American Reference Books Annual American Masculinities A Historical Encyclopedia* is a first of its kind reference detailing developments in the growing field of men s studies This up to date analytical review serves as a marker of how the field has evolved over the last decade especially since the 1993 publication of Anthony Rotundo s *American Manhood* This seminal

Historical Dictionary of Film Noir Andrew Spicer, 2010-03-19 Film noir literally black cinema is the label customarily given to a group of black and white American films mostly crime thrillers made between 1940 and 1959 Today there is considerable dispute about what are the shared features that classify a noir film and therefore which films should be included in this category These problems are partly caused because film noir is a retrospective label that was not used in the 1940s or 1950s by the film industry as a production category and therefore its existence and features cannot be established through reference to trade documents The Historical Dictionary of Film Noir is a comprehensive guide that ranges from 1940 to present day neo noir It consists of a chronology an introductory essay a bibliography a filmography and over 400 cross referenced dictionary entries on every aspect of film noir and neo noir including key films personnel actors cinematographers composers directors producers set designers and writers themes issues influences visual style cycles of films e g amnesiac noirs the representation of the city and gender other forms comics graphic novels television and videogames and noir s presence in

world cinema It is an essential reference work for all those interested in this important cultural phenomenon **Strange TV** M. Keith Booker, 2002-12-30 In the years since World War II commercial television has become the most powerful force in American culture It is also the quintessential example of postmodernist culture This book studies how *The Twilight Zone* *The Prisoner* *Twin Peaks* and *The X Files* display many of the central characteristics that critics and theorists have associated with postmodernism including fragmentation of narratives and characters multiplicity in style and genre and the collapse of traditional categorical boundaries of all kinds The author labels these series strange TV since they challenge the conventions of television programming thus producing a form of cognitive estrangement that potentially encourages audiences to question received ideas Despite their challenges to the conventions of commercial television however these series pose no real threat to the capitalist order In fact the very characteristics that identify these series as postmodern are also central characteristics of capitalism itself especially in its late consumerist phase An examination of these series within the context of postmodernism thus confirms Fredric Jameson's thesis that postmodernism is a reflection of the cultural logic of late capitalism At the same time these series do point toward the potential of television as a genuinely innovative medium that promises to produce genuinely new forms of cultural expression in the future **Library of Congress Subject Headings**
