Determined Fictions American Literary Naturalism:

Determined Fictions Lee Clark Mitchell, 1989 Available for the first time in English this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities The large scale imprisonment and rape of thousands of women who were euphemistically called comfort women by the Japanese military first seized public attention in 1991 when three Korean women filed suit in a Tokyo District Court stating that they had been forced into sexual servitude and demanding compensation Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan much if it inspired by Yoshimi's investigations How large a role did the military and by extension the government play in setting up and administering these camps What type of compensation if any are the victimized women due These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2 000 centers where as many as 200 000 Korean Filipina Taiwanese Indonesian Burmese Dutch Australian and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel Many of the women were teenagers some as young as fourteen To date the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers

The Theory and Practice of American Literary Naturalism Donald Pizer, 1993 In his first book devoted exclusively to naturalism Donald Pizer brings together thirteen essays and four reviews written over a thirty year period that in their entirety constitute a full scale interpretation of the basic character and historical shape of naturalism in America The essays fall into three groups Some deal with the full range of American naturalism from the 1590s to the late twentieth century and some are confined either to the 1890s or to the twentieth century In addition to the essays an introduction in which Pizer recounts the development of his interest in American naturalism reviews of recent studies of naturalism and a selected bibliography contribute to an understanding of Pizer's interpretation of the movement One of the recurrent themes in the essays is that the interpretation of American naturalism has been hindered by the common view that the movement is characterized by a commitment to Emile Zola's deterministic beliefs and that naturalistic novels are thus inevitably crude and simplistic both in theme and method Rather than accept this notion Pizer insists that naturalistic novels be read closely not for their success or failure in rendering obvious deterministic beliefs but rather for what actually does occur within the dynamic play of theme and form within the work Adopting this method Pizer finds that naturalistic fiction often reveals a complex and suggestive mix of older humanistic faiths and more recent doubts about human volition and that it renders this

vital thematic ambivalence in increasingly sophisticated forms as the movement matures In addition Pizer demonstrates that American naturalism cannot be viewed monolithically as a school with a common body of belief and value Rather each generation of American naturalists as well as major figures within each generation has responded to threads within the naturalistic impulse in strikingly distinctive ways And it is indeed this absence of a rigid doctrinal core and the openness of the movement to individual variation that are responsible for the remarkable vitality and longevity of the movement Because the essays have their origin in efforts to describe the general characteristics of American naturalism rather than in a desire to cover the field fully some authors and works are discussed several times though from different angles and some referred to only briefly or not at all But the essays as a collection are complete in the sense that they comprise an interpretation of American naturalism both in its various phases and as a whole Those authors whose works receive substantial discussion include Stephen Crane Frank Norris Theodore Dreiser Edith Wharton James T Farrell Norman Mailer Joyce Carol Oates and William Kennedy Of special interest is Pizer's essay on *Ironweed* which appears here for the first time

Documents of American Realism and Naturalism Donald Pizer, 1998

Donald Pizer presents the major critical discussions of American realism and naturalism from the beginnings of the movement in the 1870s to the present He includes the most often cited discussions ranging from William Dean Howells Henry James and Frank Norris in the late nineteenth century to those by V L Parrington Malcolm Cowley and Lionel Trilling in the early twentieth century To provide the full context for the effort to interpret the nature and significance of realism and naturalism during the periods when the movements were live issues on the critical scene however he also includes many uncollected essays His selections since World War II reflect the major recent tendencies in academic criticism of the movements Through introductions to each of the three sections Pizer provides background delineating the underlying issues motivating attempts to attack defend or describe American realism and naturalism In particular Pizer attempts to reveal the close ties between criticism of the two movements and significant cultural concerns of the period in which the criticism appeared Before each selection Pizer provides a brief biographical note and establishes the cultural milieu in which the essay was originally published He closes his anthology with a bibliography of twentieth century academic criticism of American realism and naturalism

Form and History in American Literary Naturalism June Howard, 2017-03-01 Examining the novels of Frank Norris Theodore Dreiser Jack London and other writers June Howard presents a study of American literary naturalism as a genre Naturalism she states is a way of imagining the world and the relation of the self to the world a way of making sense and making narrative out of the comforts and discomforts of its historical moment Howard believes that naturalism accommodates the sense of perilousness uncertainty and disorder that many Americans felt in the late nineteenth and early twentieth centuries She argues for a redefinition of the form which allows it to be seen as an immanent ideology responding to a specific historical situation Working both from accepted definitions of naturalism and from close analysis of the literary texts themselves Howard constructs a new description of the genre in terms of its thematic antinomies patterns of characterization and narrative strategies She defines a range of historical and cultural reference for the ideas and images of American naturalism and suggests that the form has affinities with such contemporary ideologies as political progressivism and criminal anthropology In the process she demonstrates that genre criticism and historical analysis can be combined to create a powerful method for writing literary history Throughout Howard's study the concept of genre is used not as a prescriptive straitjacket but as a category allowing the perception of significant similarities and differences among literary works and the coordination of textual analysis with the history of literary and social forces For Howard naturalism is a dynamic solution to the problem of generating narrative from the particular historical and cultural materials available to the authors Originally published in 1985 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Frank Norris and American Naturalism Donald Pizer, 2018-05-30 Frank Norris is a seminal figure in the history of American literary naturalism despite the brevity of his career Frank Norris and American Naturalism brings together in one volume Donald Pizer's lifelong exploration of the naturalist's work ranging from his 1955 discussion of point of view in *The Octopus* to his 2010 essay on the thematic unity of that novel The essays in *Frank Norris and American Naturalism* as a whole seek to demonstrate both the coherence of Norris's thought and his contribution toward the establishment of a specific form of naturalism in America The collection's principal focus is Norris's most enduring works the novels *McTeague* and *The Octopus* though his other fiction and literary criticism are also discussed

American Literary Naturalism, a Divided Stream Charles Child Walcott, 1956

American Literary Naturalism a Divided Stream was first published in 1956 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The literary concept of naturalism perpetually contradicts itself oscillating between the transcendental affirmation of human freedom and the demonstration of its nonexistence In this tension it gropes for forms that will satisfy both demands These contradictions and this divided stream Mr Walcutt shows represent the central intellectual and social problem of the modern world where the confusions between materialism and religion are ubiquitous In tracing the development of naturalism in the novel the author provides a background with chapters on naturalistic theory and the theory and practice of Emile Zola He then traces the shifts in form through the worlds of Harold Frederic Hamlin Garland Stephen Crane Jack London Frank Norris Winston Churchill Theodore Dreiser Sherwood Anderson James T Farrell John Steinbeck Ernest Hemingway and John Dos Passes College English commented This is a book that will clarify some of the confusion that teachers and students face when they discover that naturalistic novels do not always follow naturalistic theory Writing in Prairie Schooner Ihab Hassan pointed out In speculating on the origins of naturalism in perceiving the inner contradictions of its spirit and the tensions of its form and in following its full and vital sweep as it allies itself now with impressionism now with expressionism Professor Walcutt manages to throw new light on a major movement in American letters

Mark Twain Peter Messent, 2016-01-28 This book provides an overview of Mark Twain's work and a close critical analysis of the forms and themes of his major texts The author uses recent cultural and literary theory to re-examine Twain's travel writing and fiction writing in a jargon free and accessible manner He focuses on Twain's humour and his attitudes to such subjects as boyhood nationality race relations technology and capitalist expansion and shows how his work reflects anxieties both about changes in the social and industrial order in post Civil War America and the status of the individual within it

Twentieth-century American Literary Naturalism Donald Pizer, 1982 Pizer explores six novels to define naturalism and explain its tenacious hold throughout the twentieth century on the American creative imagination

American Literary Realism, 1999 Naturalism in American Fiction John J. Conder, 2021-03-17 In this closely reasoned study John J Conder has created a new and more vital understanding of naturalism in American literature Moving from the Hobbesian dilemma between causation and free will down through Bergson's concept of dual selves Conder defines a view of determinism so rich in possibilities that it can serve as the inspiration of literary works of astonishing variety and unite them in a single though developing naturalistic tradition in American letters At the heart of this book beyond its philosophic discussion is Conder's reading of key works in the naturalistic canon beginning with Stephen Crane's *The Open Boat* and *The Blue Hotel* The special character of determinism in Crane is Conder holds the source of his complexity and striking originality He finds a stricter determinism in Norris's *McTeague* In Dreiser however the naturalistic tradition develops toward a fusion of determinism and freedom in a single work and this fusion in a different guise operates in Dos

Passos's view of self in *Manhattan Transfer* With Steinbeck's *The Grapes of Wrath* the uniting of determinism and freedom finds its fullest realization in the concept of dual selves one determined one free In Faulkner's *The Sound and the Fury* and *Absalom Absalom* the concept of the dual self appears in its most complex form The developments in the work of Steinbeck and Faulkner Conder believes bring the classic phase of American literary naturalism to a close Naturalism in American Fiction illuminates a group of major literary works and revives a theoretic consideration of naturalism It thus makes a fundamental contribution to American studies American Literary Scholarship ALS, American Literary Scholarship, 1991 American Literary Scholarship is published in annual volumes covering current critical analysis of American literature in each year since 1963 These bibliographic essays are selective and critical they describe and evaluate published works identify trends and indicate areas ripe for research American Literary Scholarship, 1990 **The Oxford Encyclopedia of American Literature** Jay Parini, 2004 The Encyclopedia of American Literature gathers together 350 essays from over 190 leading scholars on the whole of American literature from European discovery to the present At the core of the Encyclopedia lie 250 essays on poets playwrights essayists and novelists Figures such as Whitman Melville Faulkner Frost and Morrison are discussed in detail with each examined in the context of his or her times an assessment of the writer's current reputation a bibliography of major works and a list of major critical and biographical works about the writer Fifty entries on major works such as *Moby Dick* *Song of Myself* *Walden* *The Great Gatsby* *The Waste Land* *Their Eyes Were Watching God* *Death of a Salesman* and *Beloved* place the work in its historical context and offer a range of possibilities with regard to critical approach The Encyclopedia also contains essays on literary movements periods and themes pulling together a broad range of information and making connections between them Each entry has its own primary and annotated secondary bibliography and a system of cross references helps readers locate information with ease The Encyclopedia of American Literature is an outstanding reference source for students studying authors or particular pieces of literature libraries looking for one comprehensive source and readers interested in American literature its authors and its connection with various areas of study *Twentieth-century Literary Movements Dictionary* Helene Henderson, Jay P. Pederson, 2000 A reference for students in late high school and early college who are examining literature from the perspective of literary movements Entries are international in scope and describe some 500 major and less well known literary movements schools genres techniques and terms of the 20th century as well as major 19th century movements which have exerted tremendous influence on 20th century literature Each entry describes writers identified with the movement representative works literary techniques and philosophical and artistic tenets and historical and cultural context **The Femme Fatale in American Literature** Ghada Suleiman Sasa, 2008 Characters in the literary tradition of American naturalism are usually perceived as passive lacking in will weak and predetermined They are constantly seen as the victims of heredity and environment and their lives are shaped according to these strong forces that operate upon them This interesting book examines the

representation of female characters in American naturalism and argues that women in American naturalism are often represented as femmes fatales. Since heredity and environment are the determining factors in their lives, they are victims who have no control. However, with characters such as Trina Sierpe in Frank Norris's *McTeague*, Caroline Meeber in Theodore Dreiser's *Sister Carrie*, Edna Pontellier in Kate Chopin's *The Awakening*, and Helga Crane in Nella Larsen's *Quicksand*, these women victims gradually turn themselves into victimizers in order to conquer both heredity and environment. They consciously and deliberately use the only power they have that can help them overcome the naturalistic world in which they are entrapped: the power of the feminine. The book explains who exactly the femme fatale that has been born out of American naturalism is and explores images of women in American realism who precede the femme fatale of American naturalism. This study examines characters like Trina Sierpe, Caroline Meeber, Edna Pontellier, and Helga Crane. It analyzes these women's backgrounds, their demeanors, their temperaments, their experiences, and their settings, and explains how and when each woman decides to use her sexuality. There is also a brief discussion of other femmes fatales in American naturalism, such as Stephen Crane's *Maggie: A Girl of the Streets*. Although the perception of women in nineteenth-century American literature has always had its place in discussions of literary texts, this book is unique in its argument that women in American naturalism are neither weak nor passive but rather are strong and daring women who try diligently to find a means of fighting back. This book is an important addition to collections in literature and Women's studies.
