Nominations Before the Senate Armed Services Committee, Second Session, 110th Congress United States. Congress. Senate. Committee on Armed Services,2008 **Military Alliances in the Twenty-First Century** Alexander Lanoszka,2022-01-10 Alliance politics is a regular headline grabber When a possible military crisis involving Russia North Korea or China rears its head leaders and citizens alike raise concerns over the willingness of US allies to stand together As rival powers have tightened their security cooperation the United States has stepped up demands that its allies increase their defense spending and contribute more to military operations in the Middle East and elsewhere The prospect of former President Donald Trump unilaterally ending alliances alarmed longstanding partners even as NATO was welcoming new members into its ranks Military Alliances in the Twenty First Century is the first book to explore fully the politics that shape these security arrangements from their initial formation through the various challenges that test them and sometimes lead to their demise Across six thematic chapters Alexander Lanoszka challenges conventional wisdom that has dominated our understanding of how military alliances have operated historically and into the present Although military alliances today may seem uniquely hobbled by their internal difficulties Lanoszka argues that they are in fact by their very nature prone to dysfunction Korea & World Affairs ,2004 **The Evolution of Military Strategy of the Republic of Korea Since 1950** Byoung Tae Rhee,2004 **From Deterrence to Engagement** Terence Roehrig,2006-01-01 From Deterrence to Engagement provides a comprehensive examination of the U S South Korea defense relationship from 1945 to the present Using deterrence theory as its framework this work explores the evolving nature of U S interests in a region that became a focal point only after the North Korean invasion in 1950 Author Terence Roehrig addresses the changing nature of the threats to U S interests in Korea especially North Korea s buildup and its efforts to acquire nuclear weapons and examines specific measures utilized by the United States to implement its deterrence policy While U S policy regarding Korea has

changed over the years this timely and important work argues that although the U S commitment to protect its ally has been credible and effective the same cannot be said for its attempts to prevent North Korean nuclear proliferation From Deterrence to Engagement is certain to find an audience amongst scholars of defense policy national security and Korean security relations

The United States and Northeast Asia Robert H. Puckett,1993 This timely collection of nine original essays examines the trends emerging in Northeast Asia from a variety of perspectives Issues discussed include the implications of the increasingly multi polar balance of power in the Asia Pacific region interstate conflicts between North Korea South Korea Japan the republics of the former Soviet Union and the United States and the security role of the United States in the Pacific basin

The Japan-U.S. Alliance Nishihara Masashi,2000 For the foreseeable future the alliance with the United States will remain the cornerstone of Japan s security The Japan U S alliance is also arguably the most important factor in the stability of East Asia While this alliance is thought to rest on a firm foundation it is in reality constantly affected by a number of elements small and large Domestic public opinion and politics international events and their repercussions tensions between other countries and cultural outlook all these things and more influence the health of the alliance In this collection of essays six Japanese political scientists examine how the differences as well as the similarities in policies between the two alliance partners toward various issues and countries may affect the solidarity of the alliance and hence influence the stability of the Asia Pacific region at large Themes covered by these young scholars all of whom were born after World War II include the two countries strategies toward armed non state actors the security of Southeast Asia as a common agenda in the alliance the Taiwan issue in Sino Japanese relations the impact of a reunified Korea on the security agreements between Japan and the United States and between South Korea and the United States economic sanctions against Myanmar and the overall framework of the Japan U S alliance As the first such collection of analysis and opinion on this topic in English by Japan s intellectual leaders of tomorrow this volume makes accessible to readers current thinking in Japan on the alliance that is so important to both countries

Getting to Nuclear Zero in Northeast Asia Gregory Kulacki,Keiko Nakamura,Jae-Jung Suh,Tatsujiro Suzuki,2025-06-27 This book presents realistic alternatives to security policies based on nuclear weapons for the Northeast Asian region Northeast Asian governments and populations feel less secure than ever and the governments of the USA Russia China and North Korea are all expending considerable resources on increasing their nuclear arsenals This book presents realistic alternatives to security policies dependent on threats to use nuclear weapons and demonstrations of the resolve to use them in a war Those alternatives are grounded in the well established concept of common security The long term goal of these alternatives is the establishment of a nuclear weapon free zone in Northeast Asia This book demonstrates that lessons learned during the creation of existing nuclear weapon free zones can be successfully adapted using the proposed alternatives to nuclear threats to the considerably more challenging circumstances that exist in contemporary Northeast Asia More importantly it makes the case that the mere process of pursuing this

objective even if the goal is not realized for many decades would help facilitate regional risk reduction measures and global nuclear arms control measures that could lead in the long term to the general and complete disarmament promised by the Nuclear Nonproliferation Treaty NPT and the Treaty on the Prohibition of Nuclear Weapons TPNW of 2021 This book will be of interest to students of nuclear proliferation Asian security foreign policy and International Relations
