many considered the industry a joke Eight years later Skelly helped build the second largest wind power company in the United States and sold it for 2 billion Wind energy was no longer funny it was well on its way to powering more than 6% of electricity in the United States Award winning journalist Russel Gold tells Skelly s story which in many ways is the story of our nation s evolving relationship with renewable energy Gold illustrates how Skelly s company Clean Line Energy conceived the idea for a new power grid that would allow sunlight where abundant to light up homes in the cloudy states thousands of miles away and take wind from the Great Plains to keep air conditioners running in Atlanta Thrilling provocative and important Superpower is a fascinating look at America s future Scientific Temperance Monthly Advises ,1965 The Psychology of East-West Trade: Illusions and Opportunities Zygmunt Nagorski,1974 The British Journal of Medical Psychology ,1925 Includes papers read before the Medical Section of the British Psychological Society **Access** ,1998
