The Kaliningrad Challenge Hanne-Margret Birckenbach, 2003 The Kaliningradskaya Oblast Russia's Baltic enclave which soon will turn into an island amid the enlarged EU and NATO constitutes a twofold challenge to European politics Due to its economic social historical geographical strategic and cultural peculiarities the detached region may become a source of instability However due to the same peculiarities the region also bears the potential to serve as a pilot region for an EU Russian partnership To meet the latter perspective all actors concerned need to engage in a dialogue based coordinated and problem solving approach This study provides recommendations to a wide range of actors on how to approach the Kaliningrad challenge in a proactive manner It presents a policy paper drafted by a group of Kaliningrad experts from eight countries and is complemented by fourteen issue oriented chapters which provide in depth reasoning on the suggestions made by the group Hanne Margret Birckenbach is professor of political sciences at the University of Giessen Germany Christian Wellmann is deputy director of SHIP The Schleswig Holstein Institute for Peace Research Germany

Facilitating Transatlantic Cooperation After the Cold War Peter Barschdorff, 2001 Why are Europe and America still allied After all many observers predicted after the Cold War that NATO might collapse trade disputes could escalate and political relations would suffer in the absence of a common threat like the one formerly posed by the former Soviet Union This book argues that an *acquis atlantique* is holding the two sides together Common experiences legal stock and understandings make decision makers converge their views on controversial issues such as peace making in the Balkans NATO reform and trade of agricultural goods The *acquis* might change over time But as an analytic concept and as a driver of transatlantic politics it will remain an important constant Leisure and Elite Formation Peter Heyrman, Jan de

Maeyer, Martin Kohlrausch, 2020-05-05 This volume investigates places where old and new elites came together where these groups met and interacted but also where the rules and conventions for new elites were forged The book focusses arenas of encounter and self representation belonging to the world of leisure and embraces also the organizations and associations which established and ran these spaces and events **Die Wirklichkeit der Städte** Helmuth Berking, Martina Löw, 2005

Die Stadt ist ein Begriff der eine ganze Welt im Schlepptau hat eine semantische Verdichtung mittels derer sich nicht nur Wahrnehmungen Bilder und Erfahrungen sondern auch kulturelle Wissensbestände produzieren und organisieren lassen Obwohl Städte seit 10 000 Jahren physisch präsent sind ist der Streit um den ontologischen Status der Stadt längst nicht entschieden die Frage nach einem vorgängigen Gegenstand Stadt heute umstrittener denn je Dabei lässt sich kaum ein

European Economic Elites Friederike Sattler,Christoph Boyer,2009 Since the beginning of the 1970s democratic capitalist Western Europe as well as state socialist Eastern Europe faced the double challenge of the third industrial revolution and the second globalization The accelerated political social economic and cultural change did not lead to a crisis of capitalism or of communism instead challenging European industrial society as such In 1989 after a long erosion process state socialism failed at the task of solving the manifold problems of adjustment yet a lasting solution is also not conceivable within the context of a neo liberal new spirit of capitalism The present volume which arose from the interdisciplinary cooperation of historians and social scientists discusses the consequences of this great transformation for the economic elites in both West and East for their qualification profiles and their social composition their options and their room for maneuver their value systems and legitimization strategies their self perception and their public image Economic elites in both systems saw themselves forced to adopt new strategies which very often seem quite different at the surface looking deeper they exhibit clear similarities After 1989 the consolidation of the post socialist economic elites has all in all been completed according to the Western example The emerging convergences which are being supported by the process of European integration contributed to the internationalization of the European economic elites The volume discusses the problem how

strong this tendency was and if it has already created truly transnational economic elites more or less separated from the national context The contributions which are embedded into a coherent interpretative framework are penned by internationally renowned experts and junior researchers from a wide array of countries from Britain to Poland and from Norway to Portugal The innovative value of the volume lies in its Europe wide scope and above all in its comparative East West perspective A genuinely European community of researchers tackles a topic which is indisputably current for history as well as for the social sciences
