C. Mierzejewski,2014-03-30 The largest enterprise in the capitalist world between 1920 and 1932 the Deutsche Reichsbahn
German National Railway was at the center of events in a period of great turmoil in Germany In the first detailed history of
this important organization Alfred Mierzejewski presents a sophisticated analysis of the Reichsbahn s operations finances
and political and social roles In addition he uses the story of the Reichsbahn to gain new perspectives on modern German
economic and political history Mierzejewski describes and analyzes the beginnings of the national railway in Germany and
the problems that it faced He examines the Reichsbahn s noncapitalistic commonweal approach to economic management
and shows how the railway was used to hold Germany together especially in the face of Bavarian particularism Mierzejewski
s account also provides unparalleled insight into Germany s reparations policies demonstrating that Germany was fully
capable of paying the Dawes annuities and that the government s claims that reparations paid by the Reichsbahn hurt both
the railway and Germany were groundless A second volume will cover the period from 1933 to 1945 *Studien zum
