at different paces and followed different patterns Most historical research up to now has ignored this diversity preferring to focus on women s emancipation movements in major western European countries such as Britain and France The present volume provides a broader context to the movement by including countries both large and small from all regions of Europe Fourteen historians all of them specialists in women s history examine the origins and development of women s emancipation movements in their respective areas of expertise By exploring the cultural and political diversity of nineteenth century Europe and at the same time pointing out connections to questions explored by conventional scholarship the essays shed new light on common developments and problems     The English Historical Review ,2012     **Journal of Modern European**
