Deutsche Exilliteratur 1933-1945:

Exile in Literature María-Inés Lagos-Pope, 1988 This chronologically arranged collection of essays explores the concept of exile from the literal to the metaphorical in Western literary works such as those of Hrothswitha of Gandersheim Dante Unamuno Heinrich Boell and Irish and Latin American contemporary writers

International Publishing in the Netherlands, 1933-1945 Hendrik Edelman, 2010-09-24 International publishing in the Netherlands had a glorious tradition in the seventeenth and eighteenth centuries A remarkable revival took place after 1933 when several Dutch publishers began to issue books written by exiles of the Nazi regime in the German language The decline of German scholarly and scientific publishing during the same time inspired a number of other Dutch publishers to expand their programs or start new ones As the English language became more prominent internationally enterprising Dutch publishers began to explore these markets as well After the Germans invaded the Netherlands a number of printers began to produce finely printed books and pamphlets in many languages clandestinely as an act of defiance or to raise money for underground causes This book documents these trends and events in the form of a series of bio bibliographical portraits of the major participating publishers

Exile in Argentina, 1933-1945 Olga Elaine Rojer, 1989 In her comprehensive study of the German exile in Argentina from 1933 1945 Olga Elaine Rojer examines a fascinating historical paradox over 45 000 Germans fled the Nazis and settled in Argentina the Nazi playground of South America Yet the Germans unwelcome and unsuited to life in exile survived through an intricate support network of organizations publishers schools journals and even theatre Rojer looks at Latin American life for the German speaking exile focusing on the literature produced by the refugees

Culture in Dark Times Jost Hermand, 2014-09 BETWEEN 1933 AND 1945 MEMBERS OF THREE GROUPS THE Nazi fascists Inner Emigration and Exiles fought with equal fervor over who could definitively claim to represent the authentically great German culture as it was culture that imparted real value to both the state and the individual But when authorities made pronouncements about culture were they really talking about high art This book analyzes the highly complex interconnections among the cultural political concepts of these various ideological groups and asks why the most artistically ambitious art forms were viewed as politically important by all cultured or even semi cultured Germans in the period from 1933 to 1945 with their ownership the object of a bitter struggle between key figures in the Nazi fascist regime representatives of Inner Emigration and Germans driven out of the Third Reich
