Deutschland Im Zeitalter Des Absolutismus 1648-1763:

Deutschland im Zeitalter des Absolutismus (1648-1763) Rudolf Vierhaus, 1978 **Germany in the Age of Absolutism** Rudolf Vierhaus, 1988 Reconstructs the structures that marked the history of Germany from the Thirty Years War to the end of the Seven Years War **Das 17. und 18. Jahrhundert und Große Themen der Geschichte Preußens** Wolfgang Neugebauer, 2009-12-22 Mit diesem Band ist das auf drei Bände angelegte Handbuch für Preussische Geschichte abgeschlossen Sein zeitlicher Schwerpunkt liegt auf der Frühen Neuzeit 16-18. Jahrhundert Staat und Politik werden im chronologischen Überblick dargestellt Von den großen Themen der preussischen Geschichte werden das Verhältnis Brandenburg-Preußen nach Westeuropa Brandenburg-Preußen im Alten Reich die Hugenotten als Minorität sowie die Geschichte Berlins als Residenzort dargestellt Eine historiografische Einleitung referiert die Entwicklung Brandenburg-Preußens als Forschungsproblem von den landesgeschichtlichen Anfängen über die Epochen der Verwissenschaftlichung des Preußenthemas im 19. und 20. Jahrhundert über die Umbrüche von Diktaturen bis an die Schwelle zur Gegenwart Mit seiner umfangreichen kritischen Bilanz verleiht das Handbuch der wissenschaftlichen Arbeit auf diesem Feld neue Impulse *Handbuch der deutschen Bildungsgeschichte* Notker Hammerstein, Christa Berg, 1987 Johann Georg Keyßler und die Reisebeschreibung der Frühaufklärung Winfried Siebers, 2009 Patriots and Paupers Mary Lindemann, 1990-10-04 Patriots and Paupers carefully analyzes a crucial juncture in the history of a great city Hamburg's passage from the pre-modern into the modern world Despite the relative wealth of historical literature on Reformation Germany and on Germany after unification few English language histories have addressed the events of the eighteenth and early nineteenth centuries Mary Lindemann here details issues associated with poor relief indigency mendicancy public health labor regulation social control and disciplining then uses these as springboards to broader historical debates She draws out the subtle yet decisive political shift from the paternalistic dirigism of a government of fathers and uncles to the socio-economic laissez faire of early liberalism and locates this political metamorphosis firmly within the framework of Hamburg's dynamic economic development and dramatic demographic growth She links these political and social changes to the intellectual cultural and prosopographical contexts of the German Enlightenment Far more than a history of poverty and social welfare policies Patriots and Paupers explores the critical interconnections between economics demographics social change and government in the closing years of the European Old Regime *Working-class Formation* Ira Katznelson, Aristide R. Zolberg, 1986-12-21 Applying an original theoretical framework an international group of historians and social scientists here explores how class rather than other social bonds became central to the ideologies dispositions and actions of working people and how this process was translated into diverse institutional legacies and political outcomes Focusing principally on France Germany and the United States the contributors examine the historically contingent connections between class as objectively structured and experienced and collective perceptions and responses as they develop in work community and politics Following Ira Katznelson's introduction

of the analytical concepts William H Sewell Jr Michelle Perrot and Alain Cottureau discuss France Amy Bridges and Martin Shefter the United States and Jargen Kocka and Mary Nolan Germany The conclusion by Aristide R Zolberg comments on working class formation up to World War I including developments in Great Britain and challenges conventional wisdom about class and politics in the industrializing West

Enlightened Nationalism Matthew Bernard Levinger,2000 This major reinterpretation of Prussian history from the Napoleonic era to the Revolution of 1848 shows how reforms inspired by the Enlightenment ultimately consolidated an authoritarian political culture The book casts new light on the origins of German nationalism demonstrating that the competing discourses of civil servants aristocrats and bourgeois political activists produced a new vision of a harmonious nation under monarchical rule

Visions of the Enlightenment Michael J. Sauter,2009 This book examines the public battle sparked by the promulgation in 1788 of Prussia's Edict on Religion Historians have seen in this moment nothing less than the end of the Enlightenment in Prussia This book begs to differ and argues that social control had a long enlightened pedigree Using both archival and published documents this book reveals deeply the entire Prussian elite was invested in social control of the masses especially in the public sphere What emerges is a picture of the Enlightenment in Prussia as a conservative enterprise that was limited by not merely the state but also the social anxieties of the Prussian elite
