Develop Successful Relationships:

Developing Children's Resilience and Mental Health Susana Goncalves Viana, 2018-09-25 With the increased focus on providing for children's mental health there is ever more demand for resources that will support educational settings to help children develop the skills needed to cope in today's world. This book presents nursery and school staff with a simple jargon-free guide which offers a creative approach to supporting young children to develop their social and emotional skills throughout the academic year. *Developing Children's Resilience and Mental Health* is a comprehensive programme made up of fun practical activities in a 32-session format. Each session contains a warm-up, main learning activity and relaxation exercise focusing on four REAL core themes of development: Relationships, Emotions, Awareness, Learning. Each session can be carried out on a weekly basis to build a firm foundation for children's development and to help reduce issues related to social, emotional and behavioural difficulties. With almost 100 activities in total and session-related homework tasks, this book is a vital resource for school staff and educational practitioners.

You Are Not in Control, Everything is Connected

Edenilson Brandl, In an era where our lives are increasingly intertwined with the digital and social fabric of the world, understanding the subtle, often invisible forces that shape our perceptions and relationships has never been more crucial. *You Are Not in Control, Everything is Connected* seeks to illuminate these unseen influences, offering a comprehensive exploration of how our perceptions, biases, and interactions mold our reality. From the seemingly innocuous comments that alter relationships to the profound impact of family dynamics on our worldviews, this book examines the intricate web of connections that define human experience. It delves into the power of gossip, the formation of social biases, and the cascade effect of first impressions. Each chapter is designed to peel back layers of complexity, revealing how hidden truths and concealed behaviors shape our interactions and influence our personal and professional lives. The exploration extends beyond the immediate and tangible, addressing how family secrets and intergenerational trauma affect future generations. It also examines the role of societal forces in shaping beliefs and behaviors, highlighting the ripple effects of non-disclosure and silence in perpetuating harmful patterns. In writing this book, my aim is not only to uncover these hidden influences but also to provide insights into how we might navigate them more consciously. By understanding the dynamics at play, we can better manage our relationships, make more informed decisions, and ultimately foster a more connected and empathetic world. As you read, I encourage you to reflect on your own experiences and interactions. Consider how these subtle forces have influenced your perceptions and relationships. My hope is that this exploration will empower you to recognize and navigate the intricate network of connections that shape your life and the lives of those around you. Thank you for embarking on this journey with me. Together, let's uncover the hidden threads that bind us and explore how, despite our perceptions of control, everything is indeed connected.
