Developing A Giving Church:

Developing a Giving Church Stan Toler, Elmer L. Towns, 1999 Giving is good but like other responsibilities of the Christian life it demands discipline and commitment For the pastor who is uncomfortable or unable to understand and teach his congregation these principles *Developing a Giving Church* supplies the method and support Stan Toler and Elmer Towns have combined pastoral leadership with practical applications that expand the role giving plays in the life of a vital growing church *Developing a Giving Church* Wilmer E. Grindstaff, 1954 *Developing Healthy Churches* Robert Warren, 2014-12-09 *Developing Healthy Churches* is an utterly practical and realistic guide for any leader seeking to revitalize and grow their church The long awaited sequel to the bestselling *Healthy Churches Handbook* this new volume will help you implement tried and tested approaches for healthy church growth in your parish **Giving and Stewardship in an Effective Church** Kennon L. Callahan, 1997-08-25 This complete guide to giving and stewardship sheds new light on solid financial resources one of the 12 keys to building an effective church Here is a practical plan for the growth and development of giving and stewardship in your congregation complete with action worksheets that advance the progress of the plan over four years *Contagious Generosity* Chris Willard, Jim Sheppard, 2012-07-03 The general practices related to church funding aren't producing the same results they have in the past There is a general acceptance that something has changed but little talk or interest is coming from traditional church leader training sources such as denominational entities and seminaries Pastors are largely left to their own devices to figure this out They need a lifeline While some churches are experiencing exponential growth some churches despite their best efforts have been unsuccessful at moving beyond survival mode Coupled with increased competition from other nonprofits and a decline in the commitment to give to the church first churches risk losing the funding they need A growing number of leaders are beginning to discover there is another way and are struggling to understand what makes one church generous and another not There is a need in the market to offer a simple working definition of generosity and reveal the secrets some church leaders seem to have simply stumbled upon which are resulting in unexplainable ministry growth and unprecedented church funding even in the midst of tough economic times The content of this material was developed and refined by Jim Sheppard and Chris Willard through years of ministry leadership in the local church consulting with church leaders across a broad spectrum of church settings and through participation in and leadership of the Generous Church Leadership Community facilitated by Leadership Network Of particular benefit will be the collection of observations and best practices gleaned during the Generous Church Leadership Community that originated within real life church leadership situations and scenarios by highlighting specific challenges methods and successes **Maximize** Nelson Searcy, Jennifer Dykes Henson, 2010-10-01 *Maximize* is the ultimate how to book for pastors and church leaders who long for their churches to be fully resourced to carry out ministry initiatives without financial strain Pastor Nelson Searcy provides an innovative step by step plan for turning first time givers into extravagant

stewards of God's resources Shining a light on the often taboo subject of money Maximize will explore what causes someone to give for the first time and what leaders can do to systemize and maximize these gifts while growing strong disciples Readers will learn how to cultivate first time givers motivate people to tithe develop an ongoing stewardship system follow up with givers the right way develop multiple giving options shepherd the five types of givers in the church educate people to grow in the grace of giving Stewardship is an essential part of discipleship This revolutionary yet biblically based guide will chase the money discussion out of the darkness and bring it the attention it deserves Every pastor needs a copy of Maximize

International Development Bruce Currie-Alder, Ravi Kanbur, David M. Malone, Rohinton Medhora, 2014-02-27 Thinking on development informs and inspires the actions of people organizations and states in their continuous effort to invent a better world This volume examines the ideas behind development their origins how they have changed and spread over time and how they may evolve over the coming decades It also examines how the real life experiences of different countries and organizations have been inspired by and contributed to thinking on development The extent to which development works depends in part on particular local historical or institutional contexts General policy prescriptions fail when the necessary conditions that make them work are either absent ignored or poorly understood There is a need to grasp how people understand their own development experience If the countries of the world are varied in every way from their initial conditions to the degree of their openness to outside money and influence and success is not centred in any one group it stands to reason that there cannot be a single recipe for development Each chapter provides an analytical survey of thinking about development that highlights debates and takes into account critical perspectives It includes contributions from scholars and practitioners from the global North and the global South spanning at least two generations and multiple disciplines It will be a key reference on the concepts and theories of development their origins evolution and trajectories and act as a resource for scholars graduate students and practitioners **Bridges to People** Sean S.
