Developing Personal, Social and Moral Education Through Physical Education Anthony Laker, 2001

Developing Personal, Social & Moral Education Through Physical Education, 2001 *Developing Personal, Social and Moral Education through Physical Education* Anthony Laker, 2002-01-04 Personal social and moral development through physical education and sport is a relatively under researched area. Most teaching concentrates on the performance aspect of physical education while the National Curriculum requires teachers to address a number of non physical outcomes such as learning rules teamwork cooperation and competition. This timely book redresses that balance by providing classroom practitioners and student teachers with practical advice and tried and tested suggestions for activities and strategies to help them use physical education as an effective vehicle for the all round personal development of the individual. Tony Laker pays particular attention to curriculum development planning units of work and lesson planning considering different types of assessment and suggestions on which forms are most appropriate for measuring programme effectiveness and the personal development of pupils. The role of the reflective practitioner and a framework within which teachers can reflect on their practice. Through using an extensive range of diagrams photos and bulleted lists Laker makes this guide a concise and accessible read giving practitioners the opportunity to extend and develop their abilities in teaching this subject.

A Practical Guide to Teaching Physical Education in the Secondary School Susan Capel, Peter Breckon, 2006-09-27 This book provides a range of practical activities designed to support physical education teachers learning. The activities include case studies examples of pupils work examples of existing good practice and a range of tried and tested teaching strategies. The book also includes helpful photocopiable resources and training materials. Activities in each chapter provide a toolkit to help student physical education teachers to analyse their learning and performance. This book extends the popular *Learning to Teach PE in the Secondary School* textbook providing detailed examples of theory in practice. It is packed with examples of how to analyse practice to ensure pupil learning is maximised. These examples are based on the best research and practice currently available. In addition the book provides web based links to sources of new knowledge supporting evidence based practice.

The Future of Physical Education Anthony Laker, 2003-12-16 Anthony Laker leads an outstanding international team of educational theorists in critically examining the theoretical underpinnings of physical education and in challenging the rhetoric the practices and the pedagogies that prevail in our schools. There has been a great deal of discussion surrounding the value of this subject in schools particularly around the form that physical education should take. The domination of physical education teaching by the scientific technical discourses is problemized and it is suggested that this domination limits the potential of the subject to be culturally and contextually relevant to students in schools. This edited collection aims to extend the worldwide academic debate of the future of physical education in schools by challenging the prevailing authorised curricula. Each contributor address a key contemporary issue in physical education bringing different

perspectives as they relate to the evolving issues of the subject They ask important questions about where we intend to take the knowledge we have gained from a legacy of positive research These chapters tackle critical issues in modernist physical education and suggest how a re evaluation could contribute to the continuing advancement of the subject for more diverse educational benefits Laker draws this body of work together in a conclusion that describes a theoretically and pedagogically innovative physical education curriculum for the 21st century This book is a summary of the current state of research in physical education It invites debate and discussions in the field and re conceptualises physical education theory into inclusive practices located in the postmodern school world Pathophysiology, Homeostasis and Nursing Roger Watson, Tonks Fawcett, 2003 Pathophysiology Homeostasis and Nursing shows clearly how understanding physiology can improve nursing care and covers the main issues that relate to basic observations *Education Through Physical Education* Agnes Rebecca Wayman, 1928 Personal, Social and Moral Development Through Physical Education Tony Laker, 2000 **Personal, Social and Moral Education** ,1983 *Documents* Boston (Mass.).
