Development Among Africa's Migratory Pastoralists:

Development Among Africa's Migratory Pastoralists Aggrey Ayuen Majok, Calvin W Schwabe, 1996-07-22 Beginning with the Sahelian drought of the 1970s through the complex succession of catastrophes in Ethiopia and continuing tragedies of Somalia and the Southern Sudan the plights of Africa's more than 30 million migratory pastoralists receive bursts of international television coverage and emergency aid yet the underlying problems within their largely marginal lands remain unresolved. Virtually all past approaches and specific attempts at development among them have failed. A prominent problem has been the inability of involved persons within diverse disciplines to communicate effectively with one another and to cooperate. In addressing this continent-wide problem the authors adopt a practical approach and provide sufficient detail to illustrate its likelihood to achieve positive results within the severe constraints of available resources and other current realities. They propose for the first time meaningful and realistic possibilities for bettering the lives of these numerous peoples in ways they themselves would desire. *Pastoralism and Climate Change in East Africa* Yanda, Pius Zebhe, Mung'ong'o, Claude Gasper, 2018-08-03 *Pastoralism and Climate Change in East Africa* provides systematic and robust empirical investigations on the impact of climate change on pastoral production systems as well as participating in the ongoing debate over the efficacy of traditional pastoralism. This book is an initial product of the Project Building Knowledge to Support Climate Change Adaptation for Pastoralist Communities in East Africa implemented by the Centre for Climate Change Studies of the University of Dar es Salaam with support from the Open Society Initiative for Eastern Africa. Traditional pastoralism has proved to be a resilient and unique system of adaptations in a dynamic process of unpredictable climatic variability and continuous human interactions with the natural environment in dryland ecosystems. Pastoral adaptations and climate-induced innovative coping mechanisms have strategically been embedded in the indigenous social structures and resource management value systems. Pastoral livelihoods have nevertheless become increasingly vulnerable to climate change impacts as a result of prolonged marginalization and harmful external interventions. The negative effect of global climate change has been an added dimension to the already prevailing crisis in the pastoral livelihood system which is substantially driven by non-climatic factors of internal and external pressures of change such as population growth, bad governance and shrinking rangelands lost to competing activities. *The Timbuktu School for Nomads* Nicholas Jubber, 2016-11-15 A passionate paean to the Sahara. New York Times Season's Best Travel Books. The Sahara, a dream-like far away landscape of Lawrence of Arabia and Wilfred Thesiger. The English Patient and Star Wars and home to nomadic communities whose ways of life stretch back millennia. Today it's a teeth-janglingly dangerous destination where the threat of jihadists lurks just over the horizon. Following in the footsteps of 16th century traveller Leo Africanus, Nicholas Jubber went on a turbulent adventure to the forgotten places of North Africa and the legendary Timbuktu. Once the seat of African civilization and home to the richest man who ever lived, this mythic city is now scarred by terrorist occupation and is so

remote its own inhabitants hail you with the greeting Welcome to the middle of nowhere From the cattle markets of the Atlas across the Western Sahara and up the Niger river Nicholas joins the camps of the Tuareg Fulani Berbers and other communities to learn about their craft their values and their place in the world The Timbuktu School for Nomads is a unique look at a resilient city and how the nomads pit ancient ways of life against the challenges of the 21st century *Pastoralism in the New Millenium* Food and Agriculture Organization of the United Nations,2001-01-01 Pastoralism refers to the type of farming system which uses extensive grazing on grasslands for livestock production This type of farming covers 25 per cent of the world s land area and supports 20 million households It makes substantial contributions to the economies of developing countries although agricultural encroachment conflict and drought continue to erode this way of life This publication considers key policy issues and trends involved in attempts to improve the livelihoods of pastoralist families and communities *Sudan, Oil, and Human Rights* Jemera Rone,Human Rights Watch (Organization),2003 For twenty years southern Sudan has been the site of a tragic and brutal civil war pitting the northern based Arab and Islamic government against rebels in African marginalized areas especially the south More than two million people have died and four million have been displaced as a result In 1999 anew element radically changed the war Sudanese oil located in the south was first exported by the central government The human price of this bonanza is immeasurable The government using oil revenues and aided by co opted southerners rained a scorched earth campaign of mass displacement bombing and terror on the agro pastoral southern civilians living in and near the oil zones The displaced number in the hundreds of thousands **The Human Biology of Pastoral Populations** William R. Leonard,Michael H. Crawford,2002-03-07 Sample Text Changing Identifications and Alliances in North-east Africa Günther Schlee,Elizabeth E.
