Development Of Forgetting And Reminiscence:

The Development of Forgetting and Reminiscence, 1990 Memory for Everyday and Emotional Events Nancy L. Stein, Charles J. Brainerd, Barbara Tversky, Peter A. Ornstein, 2018-10-24 The nature of memory for everyday events and the contexts that can affect it are controversial topics being investigated by researchers in cognitive social clinical and developmental lifespan psychology today This book brings many of these researchers together in an attempt to unpack the contextual and processing variables that play a part in everyday memory particularly for emotion laden events They discuss the mental structures and processes that operate in the formation of memory representations and their later retrieval and interpretation

Development of Long-Term Retention Mark L. Howe, Charles J. Brainerd, Valerie F. Reyna, 2012-12-06 For a number of decades now the study of children s memory development with few exceptions has been synonymous with the development of processes that lead to the initial encoding and immediate retention of information Although there is little doubt that the study of such acquisition processes is central to understanding memory development the long term retention of previously encoded information represents at least as important a component of children s memory Indeed as both students of memory development and educators our interest is in the maintenance and utilization of knowledge over considerable periods of time not just in the immediate e g classroom context Clearly then without an understanding of how recently acquired information is maintained in memory over extended periods of time our theories of long term memory development remain incomplete at best Although children s forgetting and reminiscence was a topic of inquiry early in this century it is only recently due in part to the current controversy concerning the reliability of children s eyewitness testimony that the study of long term retention has resurfaced in the scientific literature The purpose of this volume is to draw together some of the principals involved in this resurgence to summarize their recent research programs present new and previously unpublished findings from their labs and outline the issues they believe are important in the study of children s long term retention

Neuropsychological Foundations of Learning Disabilities John E. Obrzut, George W. Development of Long-Term Retention Mark L. Howe,Charles J. Brainerd,Valerie F. Reyna,1992-09-23 For a number of decades now the study of children s memory development with few exceptions has been synonymous with the development of pro cesses that lead to the initial encoding and immediate retention of informa tion Although there is little doubt that the study of such acquisition pro cesses is central to

understanding memory development the long term retention of previously encoded information represents at least as important a component of children's memory. Indeed, as both students of memory development and educators, our interest is in the maintenance and utilization of knowledge over considerable periods of time, not just in the immediate e.g. classroom context. Clearly, then, without an understanding of how recently acquired information is maintained in memory over extended periods of time, our theories of long term memory development remain incomplete at best. Although children's forgetting and reminiscence was a topic of inquiry early in this century, it is only recently, due in part to the current controversy concerning the reliability of children's eyewitness testimony, that the study of long term retention has resurfaced in the scientific literature. The purpose of this volume is to draw together some of the principals involved in this resurgence, to summarize their recent research programs, present new and previously unpublished findings from their labs, and outline the issues they believe are important in the study of children's long term retention.

Collaborative Remembering Michelle L. Meade, Celia B. Harris, Penny Van Bergen, John Sutton, Amanda J. Barnier, 2018

We remember in social contexts. We reminisce about the past together, collaborate to remember shared experiences, and remember in the context of our communities and cultures. This book explores the topic of collaborative remembering across a wide range of fields, including developmental, cognitive, and social psychology.
