Wake, 1839 *The Development of Marriage and Kinship* C. Staniland Wake, 1961 *Development of Marriage and Kinship*, 1889 **The Development of Marriage and Kinship** C. Staniland Wake, 2015-06-05 Excerpt from *The Development of Marriage and Kinship* In the preface to *The Evolution of Morality* published in 1878 reasons were given for dealing only incidentally in that work with sexual morality The justification for the course then pursued is to be found in the present volume which could not then have been written although the second edition of Dr J F M Lennan s *Primitive Marriage* had appeared in 1876 with certain additions under the title of *Studies in Ancient History* and in 1877 had been published Dr Lewis H Morgan s *Ancient Society* which severely criticised Dr M Lennan s views It was not until the appearance in 1880 of the result of the enquiries made by the Rev Lorimer Fison and Mr A W Howitt into the system of marriage and relationship in use among the aborigines of Australia under the title of *Kamilaroi and Kurnai* that a serious attempt to deal with the whole subject of sexual morality was possible Such an attempt is made by the present work during the preparation of which I have had the advantage of corresponding with Mr Fison with reference to the Australian system and I have to thank him and Mr Howitt for their ready consent to my making use of information received from them If Dr J F M Lennan had lived however this work might not have appeared About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Development of the Athenian Constitution** George Willis Botsford, 1893 **The Changing Transitions to Adulthood in Developing Countries** National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Population, Panel on Transitions to Adulthood in Developing Countries, 2006-01-08 Serving as a companion to *Growing Up Global* this book from the National Research Council explores how the transition to adulthood is changing in developing countries in light of globalization and what the implications of these changes might be for those responsible for designing youth policies and programs Presenting a detailed series of studies this volume both complements its precursor and makes for a useful contribution in its own right It should be of significant interest to scholars leaders of civil society and those charged with designing youth policies and programs **The Development of the Family and Marriage in Europe** Jack Goody, 1983-07-07 Around 300 A D European patterns of marriage and kinship were turned on

their head What had previously been the norm marriage to close kin became the new taboo The same applied to adoption the obligation of a man to marry his brother's widow and a number of other central practices With these changes Christian Europe broke radically from its own past and established practices which diverged markedly from those of the Middle East North Africa and Asia In this highly original and far reaching work Jack Goody argues that from the fourth century there developed in the northern Mediterranean a distinctive but not undifferentiated kinship system whose growth can be attributed to the role of the Church in acquiring property formerly held by domestic groups He suggests that the early Church faced with the need to provide for people who had left their kin to devote themselves to the life of the Church regulated the rules of marriage so that wealth could be channelled away from the family and into the Church Thus the Church became an interitor acquiring vast tracts of property through the alienation of familial rights At the same time the structure of domestic life was changed dramatically the Church placing more emphasis on individual wishes on conjugality and on spiritual rather than natural kinship Tracing the consequences of this change through to the present day Jack Goody challenges some fundamental assumptions about the making of western society and provides an alternative focus for future study of the European family kinship structures and marriage patterns The questions he raises will provoke much interest and discussion amongst anthropologists sociologists and historians
