Adopting Artificial Intelligence Tools in Higher Education Thangavel Murugan, Karthikeyan Periasamy, A.M. Abirami, 2025-05-27 This edited volume explores the adoption of artificial intelligence AI tools in higher education specifically focusing on student assessment. It examines the integration of various AI tools within higher education, discussing the challenges and opportunities they present and the innovative solutions they offer. The chapters explore various issues surrounding the use of AI in higher education and propose potential solutions. The book begins with a systematic exploration of AI's potential, presenting innovative ways to ensure fair and accurate assessments that enhance the overall quality of education. It highlights the benefits of AI-powered grading systems that streamline assessment processes, provide timely feedback, and promote fair evaluations. The text discusses how machine learning algorithms can revolutionize assessment methods, allowing individualized adaptive testing tailored to each student's unique needs. Furthermore, it examines natural language processing (NLP) techniques for evaluating student essays by analyzing linguistic features such as grammar and semantic coherence. Moreover, it highlights AI-powered virtual assistants offering personalized feedback and learning recommendations. Case studies illustrate successful AI assessment implementations and methods for improving AI-based evaluations. The book also addresses engagement and success in the post-COVID 19 context. It raises concerns about plagiarism and academic integrity, comparing AI solutions to traditional methods while exploring the challenges associated with adopting AI in education. Educators, administrators, academics, and technology experts working in institutes of higher learning will find this volume compelling. It is also suitable for students taking courses in educational technology, e-learning, and digital learning.

Implementing AI Tools for Language Teaching and Learning Pham, Vu Phi Ho, Lian, Andrew, Lian, Ania, Barros, Sandro R., 2025-04-30 The implementation of artificial intelligence AI tools has revolutionized language education. For teachers and students, it provides more options for personalized learning that can be utilized inside or outside of the classroom with real-time feedback. While AI has been pivotal in making language education accessible for students, including those in special education, it has its drawbacks in terms of algorithm bias, decreased human interaction, and security concerns. This calls for responsible use of AI in language education and further professional development for teachers to enhance their experience of language learning. *Implementing AI Tools for Language Teaching and Learning* explores the advancement of digital technology in language education and the implications it has for the future of learning. It covers various AI-driven applications for language acquisition and translation, as well as the impact they may have on students' cognitive abilities and performance. Covering topics such as essay writing skills, long short-term memory (LSTM) models, and handwritten text recognition, this book is an excellent resource for language educators, policymakers, professionals, researchers, academicians, and more.
