New Remote Work Productivity For Women:

Remote Working Alan Felstead, 2022-01-20 The coronavirus pandemic forced work back into the home on a massive scale. The long held belief that work and home are separate spheres of economic life was turned on its head overnight. Many employees were new to this way of working and many employers had to manage a disparate workforce for the first time. This book reviews what impact this shift had on the lives of millions of employees, the organisations which employ them and the societies in which they live. It also looks to a future in which more work is carried out remotely at home, in the local café, restaurant or bar, or while moving from place to place. The book synthesises the existing evidence in an accessible and easy to read way. It will appeal to all those who want a quick and concise introduction to the major themes associated with remote and hybrid working. This will include teachers, lecturers, students, academics and policy makers, as well as those who have experienced the challenges and benefits of homeworking first hand. *Post-Pandemic Economic and Social Development* Muzalwana Abdul Talib, Ahmad Farid Osman, Elya Nabila Abdul Bahri, 2024-11-11 This book explores Malaysia's experience during the COVID-19 pandemic, analyzing the profound economic and societal challenges faced from 2020 to 2022. The coverage of Malaysia's post-pandemic recovery provides valuable insights into ongoing global issues. Contributors to this book address a wide range of topics, including unemployment, monetary and trade policies, tourism, human capital development, and women's labor participation. They also examine the rise of the gig economy, poverty alleviation efforts, and social safety nets. By presenting model applications and empirical research, the book offers data-driven policy advice to handle challenges that arise from pandemics, such as rising inflation, supply chain disruptions, disparities, and sustainability issues. This book will interest academics and researchers in the field of econometrics, Asian economics, and Malaysian studies. It will also act as a useful guide for NGOs, practitioners, public administrators, and economic policymakers involved in post-COVID-19 economic revival and policy development. *Innovation Capabilities and Entrepreneurial Opportunities of Smart Working* Orlando, Beatrice, 2023-11-24 The COVID-19 pandemic has accelerated the adoption of Smart Working (SW) and Distance Learning (DL), leading to concerns about their overall effectiveness despite initial efficiency. It empowers decision makers to make informed choices, develop innovative strategies, and maximize benefits while mitigating potential negative effects.
