Handbook of Global Philosophies on AI Ethics Naresh Singh, Ram B. Ramachandran, 2025-08-15 This book offers an exploration of the diverse perspectives shaping the future of artificial intelligence AI highlighting the influence of non Western thinking in its development What would the impact be if AI were developed with the wisdom of Ubuntu the harmony of Confucian thought or the Indian principle of Vasudhaiva Kutumbakam the world is one family at its core This thought provoking collection brings together leading voices from around the globe to reimagine AI systems that are fair ethical and inclusive Addressing critical issues such as bias fairness privacy and existential risks it challenges the status quo and envisions a future where AI reflects the values of all humanity not just a select few Exploring the influence of topics like religion culture and social movements the book examines how these perspectives shape AI s application in industries such as finance education and the military while underscoring the importance of establishing robust ethical guardrails Whether you re a curious reader a policy maker a scholar or a tech innovator this book is your guide to understanding how different cultural perspectives can redefine AI ethics It s time to ask what kind of world do we want AI to build for us all

Transmedia Creatures Francesca Saggini, Anna Enrichetta Soccio, 2018-10-19 On the 200th anniversary of the first edition of Mary Shelley s *Frankenstein* Transmedia Creatures presents studies of *Frankenstein* by international scholars from converging disciplines such as humanities musicology film studies television studies English and digital humanities These innovative contributions investigate the afterlives of a novel taught in a disparate array of courses *Frankenstein* disturbs and transcends boundaries be they political ethical theological aesthetic and not least of media ensuring its vibrant presence in contemporary popular culture Transmedia Creatures highlights how cultural content is redistributed through multiple media forms and modes of production including user generated ones from below that often appear synchronously and dismantle and renew established readings of the text while at the same time incorporating and revitalizing aspects that have always been central to it The authors engage with concepts value systems and aesthetic moral categories among them the family horror monstrosity diversity education risk technology the body from a variety of contemporary approaches and highly original perspectives which yields new connections Ultimately *Frankenstein* as evidenced by this collection is paradoxically enriched by the heteroglossia of preconceptions misreadings and overreadings that attend it and that reveal the complex interweaving of perceptions and responses it generates Published by Bucknell University Press Distributed worldwide by Rutgers University Press

Four Battlegrounds Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club s Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today s great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI

superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future Four Battlegrounds argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre s account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China s National Team of leading AI companies to show the chilling synergy between China s government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct Four Battlegrounds offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order Computerworld ,1992-09-07 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **Monthly List of Russian Accessions** Library of Congress.
