Consumer Protection, Automated Shopping Platforms and EU Law Christiana

Markou, 2019-09-10 This book looks at two technological advancements in the area of e-commerce which dramatically seem to change the way consumers shop online. In particular, they automate certain crucial tasks inherent in the shopping activity, thereby relieving consumers of having to perform them. These are shopping agents or comparison tools and automated marketplaces. It scrutinizes their underlying processes and the way they serve the consumer, thereby highlighting risks and issues associated with their use. The ultimate aim is to ascertain whether the current EU regulatory framework relating to consumer protection, e-commerce data protection and security adequately addresses the relevant risks and issues, thus affording a safe shopping environment to the e-consumer.
