composer's particular version of it Building on Carl Dahlhaus's analysis of emerging tonality in Monteverdi's madrigals Chafe expands the scope of the modal hexachordal system rooted in the composer's work at the time of his fourth and fifth madrigal books In addition to covering text music relationships of a large and representative amount of Monteverdi's music Chafe discusses several unexplored areas crucial to any understanding of the composer's tonal language The two madrigals *Cor mio mentre vi miro* from Book Four and *O Mirtillo* from Book Five illustrate the theoretical features of early seventeenth century tonality Chafe examines the pronounced sense of tonal clarity that distinguishes the Fourth Book of Madrigals and he articulates the tonal styles Monteverdi used as organizing criteria in the Fifth Book In subsequent chapters he demonstrates how the characteristic devices of *Orfeo* emerge as basic properties of the modal hexachordal system and discusses Monteverdi's creation of ordered reality in *Il Ballo delle in grate* and the *Lamento d Arianna* He further argues that the Sixth Book symbolized the interaction of polyphonic madrigal and monody and demonstrates convincingly that the Seventh Book was a milestone in Monteverdi's creative development assuming the characteristics that marked his later tonal style In the Eighth Book the composer set forth a manifesto for the allegorical nature of Baroque music *Il ritorno d Ulisse un patria* is a mature working out of the potential of tonal allegory Finally in the last three chapters Chafe discusses the tonal allegorical framework aspects of musical characterization and questions of authenticity in Monteverdi's last opera *L'incoronazione di Poppea*
