exhibition context in recent time Scenography has been acting as a transformative force to reform the traditional exhibitionary complex and consequently this has led to an unprecedented intersection where scenography meets contemporary curating which further informs a radical ideological shift This paper aims to exploit a new land of discussion to look into this intersection between scenographic practice and contemporary curating its mergence and the subsequent revolution it has caused By seeing museums and exhibition spaces as metaphorical stages it fundamentally reconfigures the infrastructure of curating practices in terms of a shift in authorship architectural embodiment of ideas field of experience layered narrative dramaturgy and the hybrid expressions of new media Three case studies will demonstrate scenography s wide ranged capacities and various methodologies in dealing with contemporary issues Cases include BMW Museum Reopened in 2008 Cultures of the World Opened in 2010 and Leonardo s Last Supper A Vision by Peter Greenaway 2008 2010 Respectively they prove scenography s overarching influence of acting as a brandscape as a site of cultural mediation and as interference and discourse The whole discussion cuts through major discourses in the field both responding to the increasing awareness of the notion of staging experiences in the rise of experience economy and the expanding notion of curating in parallel
