Destiny His Choice The Loyalism Of Andrew Marvell:

Destiny his choice John Malcolm Wallace, Destiny His Choice J. M. Wallace, 1968 *Destiny his Choice* is a literary and historical study of Marvell's political poems and prose which rejects usual claim that Marvell was merely a turncoat **The Political Identity of Andrew Marvell** Conal Condren, A. D. Cousins, 1990 Andrew Marvell is one of the most significant figures in seventeenth century English literature and he was also one of the most elusive The two characteristics of intensity and elusiveness can be discovered in both his poetry and his prose both of which reveal Marvell's continued involvement with contemporary politics and the related issues of the day Much of Marvell's writings were related to politics in some way his preoccupations included public praise the ambivalent status of the writer in society the conflicts among codes of conduct corruption and courtly life all of which are coloured by his concern for the religious state of the nation These seven essays constitute a major re-appraisal of Marvell as writer and politician *Marvell's Ambivalence* Takashi Yoshinaka, 2011 A fresh reading of Marvell's most important works exploring the variety and complexity of his approaches to contemporary religious and political events Andrew Marvell's celebrated poetic ambivalence to the philosophical political and religious controversies of mid-seventeenth century England is the subject of this book which includes major new historical readings of his most important lyrics and political verse incorporating material from hitherto unpublished contemporary manuscripts It places the poetic imagination of Marvell and his contemporaries such as John Milton Henry Vaughan Abraham Cowley Margaret Cavendish William Davenant and Thomas Fairfax into the context of the turbulent public events of the time and demonstrates Marvell's hitherto unnoticed connection with the liberal rational and sceptical thinkers associated with the Great Tew circle It also argues that Marvell's middle way in theology is bound up with his ambivalence towards the Calvinist God Takashi Yoshinaka took his D Phil at the University of Oxford and is Professor of English in the Graduate School of Letters Hiroshima University English Lyric Poetry Jonathan Post, 2002-09-11 *English Lyric Poetry* is a comprehensive reassessment of lyric poetry of the early seventeenth century The study is directed at both beginning and more advanced students of literature and responds to more specialised scholarly inquiries pursued of late in relation to specific poets This extremely lucid and elegantly written book avoids the limitations of much recent criticism Donne Jonson the Spenserians Herbert Milton Marvell Vaughan as well as many non-canonical and women poets all receive sustained fresh and detailed analysis Jonathan Post seeks to assimilate many of the post-New Critical theoretical concerns with readings of the major and minor male and female authors of the period Aesthetics of contingency Matthew C. Augustine, 2018-06-01 A study of how literature responds to conditions of political uncertainty this book rewrites much of what we thought we knew about civil war and Restoration literature Rather than sparking a decisive break with the past for many the seventeenth century's civil wars opened onto a resolutely indeterminate future **Thomas Hobbes and Political Theory** Mary G. Dietz, 1990 The eight essays in this volume celebrated the 400th birthday of the English political thinker Thomas Hobbes **A Student's Guide to British**

Literature Aliki Lafkidou Dick, 1971 Between Nations David Baker, 1997-12-01 Fusing historiography with literary criticism *Between Nations* produces an array of unexpected readings of early modern texts Starting from the premise that England has never been able to emerge or define itself in isolation from its neighbors on the British Isles this book places Renaissance England and its literature at a meeting of English Irish Scottish and Welsh histories It ranges from the late sixteenth through the late seventeenth centuries and deals with the reigns of three monarchs and one regicide those of Elizabeth I James I Charles II and Oliver Cromwell However it shifts the domain they ruled from the customary center into interactions between England and the other British polities The author argues that England was able to develop into what we call a nation only in and by means of its relations with the other proto nations that often it was also suppressing Among the authors who served one or more of the four English rulers are Shakespeare Spenser and Marvell who are studied here in the way they responded to the complexities of British history that encompassed their nation They not only participated in nation building destroying but their works are shown often to be meditations on that process and their own roles in the process In *Henry V* for example Shakespeare both produces a vision of an ideal Britain and inscribes into his play the voices of various British peoples that are meant to be subsumed Spenser's *A View of the Present State of Ireland* which is often taken as an anti Gaelic screed is more plausibly seen as a text compounded of heterogeneous cultural influences many of them originating from within Ireland The complexity of the text reflects Spenser's own situation as a colonial official exiled from one British nation England to another Ireland In *An Horatian Ode upon Cromwell's Return from Ireland* Marvell explicitly considers the consequences of a campaign that historians have called the War of the Three Kingdoms In that and in a later poem *The Loyal Scot* Marvell emerges as a shrewd commentator on the British politics of his day Throughout the book demonstrates that historical readings of this period's English literary works can be as multivalent and multicentric as the British history that produced them **The Case of the Commonwealth of England, Stated** Marchamont Nedham, 1969
"The Muses Common-weale" Claude J. Summers, Ted-Larry Pebworth, 1988 Studying works by Donne Jonson Carew Davenant Herbert Herrick Crashaw Marvell Milton Vaughan and others the fourteen new essays in this collection examine seventeenth century poetry in light of that turbulent age's social and political tensions dust jacket **Seventeenth Century News Letter**, 1970 **Southern Review**, 1987 **Literary Research Newsletter**, 1984 **The McGraw-Hill Encyclopedia of World Biography**, 1973 Ideas of the Restoration in English Literature, 1660-71 Nicholas Jose, 1984 This is a study of the relationship of literary imagination and sociopolitical reality during the turbulent decades of the English Revolution A scholarly sometimes difficult sometimes argumentative but always bright and feisty book Choice Book jacket
From Donne to Marvell Boris Ford, 1974 **Pastoral and the Poetics of Self-contradiction** Judith Deborah Haber, 1988 General Catalogue of Printed Books British Museum. Dept. of Printed Books, 1972 General Catalogue of Printed Books British Museum. Department of Printed Books, 1972
