Destruction Of Nikolaevsk On Amur:

Revolutions and Counter-Revolutions Stefan Rinke, Michael Wildt, 2017-05-11 Unquestionably a watershed year in world history 1917 not only saw the Russian Revolution and the US entry into World War I it also marked a foundational moment in determining global political structures for the remaining twentieth century Yet while contemporaries were cognizant of these global connections historiography has been largely limited to analysis of the nation state A century later this book discusses the transnational dimension of the numerous upheavals rebellions and violent reactions on a global level that began with 1917 Experts from different continents contribute findings that go beyond the well known European and transatlantic narratives making for a uniquely global study of this crucial period in history Pacific Fisherman, 1922 *The Dream of Lhasa* Donald Rayfield, 2013-02-21 The great Russian explorer Nikolay Przhevalsky 1839 1888 made an indelible contribution to the world's atlases and its store of zoological and botanical knowledge as a consequence of his four arduous and dangerous expeditions through the Central Asia of Western Mongolia Eastern Turkestan and Northern Tibet Donald Rayfield's biography of Przhevalsky first published in 1976 and drawing on the explorer's diaries letters and published works tells the thrilling story of the explorer's groundbreaking journeys undertaken in an age of extreme political sensitivity between Russia China and Britain A rich portrait emerges of an extraordinary Byronic character who was ill suited to civilisation but much at home with the loneliness and hardship of the nomadic life A rigorous army officer and a phenomenal shot gifted also with a photographic memory Przhevalsky became one of the most widely admired men in Russia and Rayfield adroitly explores the grounds of his reputation *Pub155, 2004 Sailing Directions (Enroute)*, 2004 Sailing Directions 155 Enroute covers the East Coast of Russia from the Bering Strait through the Sea of Okhotsk to the coast of Korea in the Sea of Japan It is issued for use in conjunction with Sailing Directions 120 Planning Guide Pacific Ocean and Southeast Asia Companion volumes are Sailing Directions 153 154 157 158 and 159 The Private Diplomacy of Shibusawa Eiichi Shibusawa Masahide, 2025-10-01 This book offers an account of the life of Shibusawa Eiichi who may be considered the first internationalist in modern Japan written by his great grandson Masahide and published in 1970 under the title *Taiheiyo ni kakeru hashi* Building Bridges Over the Pacific Japan had a tortuous relationship with internationalism between 1840 when Shibusawa was born and 1931 the year the nation invaded Manchuria and when he passed away The key to understanding Shibusawa's thoughts against the background of this history the author shows lies in the concept of people's diplomacy namely an approach to international relations through non governmental connections Such connections entail more transnational than international relations In that sense Shibusawa was more a transnationalist than an internationalist thinker Internationalism presupposes the prior existence of sovereign states among which they cooperate to establish a peaceful order The best examples are the League of Nations and the United Nations Transnationalism in contrast goes beyond the framework of sovereign nations and promotes connections among individuals and non governmental organizations It could be called globalism in the sense that

transnationalism aims at building bridges across the globe apart from independent nation states In that sense Shibusawa was a pioneering globalist It was only in the 1990s that expressions like globalism and globalization came to be widely used This was more than sixty years after Shibusawa Eiichi s death which suggests how pioneering his thoughts were Akira Iriye
