valuable and surprising insights into the nature of the universe and our place in it *The Stones Cry Out* Randall Price, 1997 This survey of archaeological discoveries in Bible lands includes testimonies and interviews from leading archaeologists and exciting pictures featuring the latest finds made in the lands of the Bible **Sodom's Sin** Ed Noort, Tigchelaar, 2021-11-29 This volume is devoted to the receptions of and reflections on the story of Sodom and Gomorrah as told in Genesis 18 and 19 Two articles discuss intertextual reactions to the Sodom narrative within the Hebrew Bible Five contributions examine readings and rewritings of the Sodom narrative in early Jewish Christian and Islamic writings Jubilees the Dead Sea Scrolls the New Testament Revelation 11 Targumim and early Koran commentaries Two articles focus on separate themes the punishment of the Dead Sea and the prohibition on looking back Finally two articles that focus on Peter Damian and Proust's Sodome et Gomorrhe I describe the later reception of the sin of Sodom as homosexuality A bibliography of recent works completes the volume **Water, Life and Civilisation** Steven Mithen, Emily Black, 2011-04-21 A unique interdisciplinary study of the relationships between climate hydrology and human society from 20 000 years ago to the present day within the Jordan Valley It describes how state of the art models can simulate the past present and future climates of the Near East reviews and provides new evidence for environmental change from geological deposits builds hydrological models for the River Jordan and associated wadis and explains how present day urban and rural communities manage their water supply The volume provides a new approach and new methods that can be applied for exploring the relationships between climate hydrology and human society in arid and semi arid regions throughout the world It is an invaluable reference for researchers and advanced students concerned with the impacts of climate change and hydrology on human society especially in the Near East **Cities of God** David Gange, Michael Ledger-Lomas, 2013-10-17 The history of archaeology is generally told as the making of a secular discipline In nineteenth century Britain however archaeology was enmeshed with questions of biblical authority and so with religious as well as narrowly scholarly concerns In unearthing the cities of the Eastern Mediterranean travellers archaeologists and their popularisers transformed thinking on the truth of Christianity and its place in modern cities This happened at a time when anxieties over the unprecedented rate of urbanisation in Britain coincided with critical challenges to biblical truth In this context cities from Jerusalem to Rome became contested models for the adaptation of Christianity to modern urban life Using sites from across the biblical world this book evokes the appeal of the ancient city to diverse groups of British Protestants in their arguments with one another and with their secular and Catholic rivals about the vitality of their faith in urban Britain [Our Father Forsaken](#) HJ Sean Moon, 2019-11-04 Bold and forceful in its condemnation of contemporary religion *Our Father Forsaken* is a meticulously researched work that demands the attention of all Jews and Christians who seek the truth In 120 A D Marcion of Sinope a charismatic preacher appeared in Rome to reveal the hidden teachings of Jesus The real Jesus according to Marcion was a pure spirit sent from the highest God to free mankind from the clutches of the evil God of the Old Testament a lesser deity among the thousands of celestial beings The

disparity between the God of Moses and the God of Jesus Marcion maintained was obvious with rational comparison of Old and New Testaments The God of the Old Testament demanded an eye for an eye and a tooth for a tooth while Jesus said Do not resist an evil person If someone strikes you on the right cheek turn to him the other also Although Marcion was drummed out of Rome in disgrace his movement never died and it crystallized into the religion of Freemasonry In the 19th Century Marcionism was embraced by the German rationalists and made its way into contemporary Christianity Such rationalists argued that the Torah had been composed not by Moses but a host of sources and could not be accepted as authentic The New Testament they argued was equally unreliable It was composed not by eyewitnesses but editors and that the gospel accounts had been subjected to the process of myth making The theology of the rationalists was taught in every leading Catholic and Protestant seminary in the United States Since the scriptures were contradictory and a product of primitive times students of religion were taught that Christian doctrine should be centered on the social gospel a gospel stripped of all supernatural elements and all passages deemed offensive to modern sensibilities The result has been the creation of a religion that is devoid of the ambiguity and precariousness of life of the awe before the divine majesty and the judgment before the ineffable holiness
