Developing Onfarm Research The Broad Picture:

Sustainability Indicators Simon Bell, Stephen Morse, 2012-05-04 Praise for the first edition This book should be of interest to anyone interested in sustainable development and especially sustainability indicators Bell and Morse easily succeed in exposing the fundamental paradoxes of these concepts and more importantly they offer us a way forward Readers will find their practical recommendations for those attempting to do sustainability analysis in the field most welcome which is also the book's greatest strength *Local Environment The International Journal of Justice and Sustainability* This book makes a valuable contribution to the theory and practice of using indicators for sustainability It introduces systems ideas and a range of tools and techniques that have the potential to broaden and deepen our understanding of a whole range of complex situations Well worth a closer look Christine Blackmore Open University This is a book that explores new ways of thinking about how to measure sustainability It offers stimulating food for thought for environmental educators and researchers *Environmental Education Research* This book tells me as an SI practitioner where I have been and why and more importantly how I should be thinking in order to effectively present to and empower the local community in the years ahead David Ellis Principal Pollution Monitoring Officer Norwich City Council A practical guide to the development of sustainability indicators which offers a systemic and participative way to use them at local scale Our preliminary results are highly positive and the approach is applicable in many contexts Elisabeth Coudert Programme Officer Prospective and Regional Development Blue Plan The groundbreaking first edition of *Sustainability Indicators* reviewed the development and value of sustainability indicators and discussed the advantage of taking a holistic and qualitative approach rather than focusing on strictly quantitative measures In the new edition the authors bring the literature up to date and show that the basic requirement for a systemic approach is now well grounded in the evidence They examine the origins and development of Systemic Sustainability Analysis SSA as a theoretical approach to sustainability which has been developed in practice in a number of countries on an array of projects since the first edition They look at how SSA has evolved into the practical approaches of Systemic Prospective Sustainability Analysis SPSA and IMAGINE and in particular how a wide range of participatory methodologies have been adopted over the years They also provide an assessment of the strengths and weaknesses of projects that undertake work in the general field of sustainable development

Social Networks and Food Security in the Urban Fringe Stephen Morse, The Reverend Sister Nora MacNamara, 2020-04-25 This book explores how social groups in the urban fringe of Abuja Nigeria engaged with a series of development projects spanning 15 years 2003 to 2018 which focused on the enhancement of food security for farming households The groups were at the heart of these development projects and the book presents the many insights that were gained by farmers and project agents working within these partnerships and provides advice for those seeking to do the same The book also explores how the social groups attempted to lever benefits from being near to the fastest growing city in Africa and a centre of economic and political power While much has been

written about social groups and their embeddedness within wider social networks in Africa and in other parts of the world the exploration of the role of social groups within development projects is an area that remains relatively uncharted and this book seeks to fill that important gap in knowledge It provides an important contribution for all those researching and working with social groups in the developing world Developing Financial Services Nora McNamara,1998 Discusses the development of a financial services scheme in Nigeria operated under the aegis of the Diocesan Development Services since the early 1970s Includes a case study of villages in Ibaji which have participated in the savings scheme for 20 years
