Development and Planning Economy P.A. Stone,2003-09-02 This book describes in detail how the property market operates giving a clear picture of the economics of development and the way which development issues are defined by and in their turn have an effect on community and individual needs By describing how the market works and explaining the factors which need to be analysed the author aims to improve decision making techniques and machinery *Global Water Resource Issues* Gordon J. Young,James Dooge,John C. Rodda,1994 The world s water resources are coming under increasing stress a stress that will become critical globally sometime during the next century This is due to the rapidly rising population demanding more and more water and an increasing level of affluence The book discusses the background to this issue and the measures to be taken over the next 20 30 years to overcome some of the difficulties that can be foreseen and the means of avoiding others such as the hazard of floods It looks at the water resource and its assessment and management in an integrated fashion It deals with the requirements of agriculture and of rural and urban societies and to a lesser extent with those of industry and power against the background of the needs of the natural environment It presents a number of ways and means of improving the management of national and international affairs involving fresh water It highlights the importance of fresh water as a major issue for the environment and for development *Asian Economic and Political Issues* Frank H Columbus,1998 It is predicted by some observers that the 21st century will be remembered as the Asian Century Many of the countries in the region seem to be able to take the economic and trade baton when one of the others experiences problems the region in general continues to grow economically politically and militarily The articles presented in this book examine the current political and economic situations in nations across Asia particularly focusing on economic developments
