Development of Citizenship Habits Among Indigenous People Hemlata Talesra,2002 With reference to India

Consumers and Citizens Néstor García Canclini,2001 Nestor Garcia Canclini the best known and most innovative cultural studies scholar in Latin America maps the critical effects of urban sprawl global media and commodity markets on citizens The complex results mean not only a shrinkage of certain traditional rights particularly those of the welfare or client state but also indicate new openings for expanding citizenship Humanitarianism, empire and transnationalism.

1760-1995 Joy Damousi,Trevor Burnard,Alan Lester,2022-03-08 This is the first book to examine the shifting relationship between humanitarianism and the expansion consolidation and postcolonial transformation of the Anglophone world across three centuries from the antislavery campaign of the late eighteenth century to the role of NGOs balancing humanitarianism and human rights in the late twentieth century Contributors explore the trade offs between humane concern and the altered context of colonial and postcolonial realpolitik They also showcase an array of methodologies and sources with which to explore the relationship between humanitarianism and colonialism These range from the biography of material objects to interviews as well as more conventional archival enquiry They also include work with and for Indigenous people whose family histories have been defined in large part by humanitarian interventions **Democracy in Latin America, 1760-1900**

Carlos A. Forment,2024-05-31 Carlos Forment s aim in this highly ambitious work is to write the book that Tocqueville would have written had he traveled to Latin America instead of the United States Drawing on an astonishing level of research Forment pored over countless newspapers partisan pamphlets tabloids journals private letters and travelogues to show in this study how citizens of Latin America established strong democratic traditions in their countries through the practice of democracy in their everyday lives This first volume of Democracy in Latin America considers the development of democratic life in Mexico and Peru from independence to the late 1890s Forment traces the emergence of hundreds of political economic and civic associations run by citizens in both nations and shows how these organizations became models of and for democracy in the face of dictatorship and immense economic hardship His is the first book to show the presence in Latin America of civic democracy something that gave men and women in that region an alternative to market and state centered forms of life In looking beneath institutions of government to uncover local and civil organizations in public life Forment ultimately uncovers a tradition of edification and inculcation that shaped democratic practices in Latin America profoundly This tradition he reveals was stronger in Mexico than in Peru but its basic outlines were similar in both nations and included a unique form of what Forment calls Civic Catholicism in order to distinguish itself from civic republicanism the dominant political model throughout the rest of the Western world **Indigenous People and the Law in Australia** Chris
