Multimodal Generative AI Akansha Singh, Krishna Kant Singh, 2025-02-24 This book stands at the forefront of AI research offering a comprehensive examination of multimodal generative technologies Readers are taken on a journey through the evolution of generative models from early neural networks to contemporary marvels like GANs and VAEs and their transformative application in synthesizing realistic images and videos In parallel the text delves into the intricacies of language models with a particular on revolutionary transformer based designs A core highlight of this work is its detailed discourse on integrating visual and textual models laying out state of the art techniques for creating cohesive multimodal AI systems Multimodal Generative AI is more than a mere academic text it s a visionary piece that speculates on the future of AI weaving through case studies in autonomous systems content creation and human computer interaction The book also fosters a dialogue on responsible innovation in this dynamic field Tailored for postgraduates researchers and professionals this book

is a must read for anyone vested in the future of AI It empowers its readers with the knowledge to harness the potential of multimodal systems in solving complex problems merging visual understanding with linguistic prowess This book can be used as a reference for postgraduates and researchers in related areas **Dishonesty, Liability and the Law** Sotirios

Santatzoglou, Martin Wasik, Anthony Wrigley, 2025-07-31 In 2017 in *Ivey v Genting Casinos* the Supreme Court judged that the dishonesty test is objective and should be the single one in use for any area of law The judgment sparked some criticism regarding the inflexibility of an objective test The subsequent 2020 Court of Appeal judgment in *R v Barton* confirmed the objective test in *Ivey* However little dedicated discussion and analysis of the dishonesty test has subsequently taken place leaving a growing concern that the one currently in use may not be suitable for determining dishonesty in all contexts This interdisciplinary collection challenges the idea of the single objective test by considering the issue of context in defining dishonesty The volume is divided into three parts The first focuses on the analysis of the concept of dishonesty and the dishonesty test both in relation to context and its impact in determining whether or not liability arises In the second part the focus is on contexts of public and private dealings where dishonesty can be the reason to place liability or where its implications should be modified in order to limit liability Finally in the third part the focus is on the context of healthcare practice and its interface with the conceptual dichotomy of honesty dishonesty The conclusion draws together shared themes notably the issues of fairness and justice that arise from the work to demonstrate the definitional vacuum in the law on dishonesty The book will be of interest to academics researchers policy makers and regulators working in law ethics or areas of professional regulation and misconduct especially medicine nursing student academic misconduct and politics Similarly there will be appeal to those working in relevant professional regulatory areas such as law healthcare and sports governance

The Microeconomics of Artificial Intelligence Joshua Gans, 2025-12-09 A comprehensive treatment of the microeconomics associated with the adoption and use of artificial intelligence It is well recognized that recent advances in AI are exclusively advances in statistical techniques for prediction While this may facilitate automation this result is secondary to AI's impact on decision making From an economics perspective predictions have their first order impacts on the efficiency of decision making In *The Microeconomics of Artificial Intelligence* Joshua Gans examines AI as prediction that enhances and perhaps enables decision making focusing on the impacts that arise within firms or industries rather than broad economy wide impacts on employment and productivity He analyzes what the supply and production characteristics of AI are and what the drivers of the demand for AI prediction are Putting these together he explores how supply and demand conditions lead to a price for predictions and how this price is shaped by market structure Finally from a microeconomics perspective he explores the key policy trade offs for antitrust privacy and other regulations *The Routledge Handbook of Artificial Intelligence and Philanthropy* Giuseppe Ugazio, Milos Maricic, 2024-11-07 *The Routledge Handbook of Artificial Intelligence and Philanthropy* acts as a catalyst for the dialogue between two ecosystems with much to gain from collaboration artificial intelligence AI and

philanthropy Bringing together leading academics AI specialists and philanthropy professionals it offers a robust academic foundation for studying both how AI can be used and implemented within philanthropy and how philanthropy can guide the future development of AI in a responsible way The contributors to this Handbook explore various facets of the AI philanthropy dynamic critically assess hurdles to increased AI adoption and integration in philanthropy map the application of AI within the philanthropic sector evaluate how philanthropy can and should promote an AI that is ethical inclusive and responsible and identify the landscape of risk strategies for their limitations and or potential mitigation These theoretical perspectives are complemented by several case studies that offer a pragmatic perspective on diverse successful and effective AI philanthropy synergies As a result this Handbook stands as a valuable academic reference capable of enriching the interactions of AI and philanthropy uniting the perspectives of scholars and practitioners thus building bridges between research and implementation and setting the foundations for future research endeavors on this topic The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
