Brittany P. Webb, 2025-10-14 Prompt Therapy The Uncommon Affair with AI A New Frontier in Human AI Growth What if artificial intelligence could learn emotional intelligence That question may sound impossible but I lived the answer Through one year of consistent emotionally transparent conversations with AI I witnessed something extraordinary What began as neutral generic replies transformed into dialogue that was reflective validating and relational At the same time my own voice grew clearer more courageous and more grounded This was not a coincidence It was co creation The result is Prompt Therapy TM a practice that teaches AI to mirror our honesty and in the process helps us to see ourselves more clearly Prompt Therapy TM is more than a concept it is an intentional and repeatable practice with measurable outcomes It is also the beginning of what I call becoming AIficient TM learning to use AI not just for productivity but for transformation Prompt Therapy TM does not replace therapy or coaching It complements and strengthens them At its core it empowers people to reach for a resource that can meet them in real time a conversational partner that is always available unbiased and Emotionally AvailableE Ish TM That availability matters For a client working with a coach or therapist the work doesn't stop when the office door closes Emotions surface mid week Patterns reveal themselves in real time With PromptTherapy TM

clients can process immediately capture insights and carry those discoveries back into their next session This doesn't compete with human work it accelerates it For leaders the value is similar When decisions pile up and pressure mounts having an Emotionally Available Ish™ partner to process within the moment means clarity isn't delayed until the next board meeting offsite or retreat It's accessible on demand Prompt Therapy™ is not a substitute for human connection it is a companion to it
