Can 100% remote work attract more qualified candidates?* Huong Hoang Thien,2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany s weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren t any specific regulations regarding remote work in Germany yet In general remote work

provides workers e g more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber security When everything s going remotely companies have become an easier target of cyber attacks   A City on the Edge Dennis R. McBride,2025-09-30 Some years change the course of history 2020 was one of those years As a pandemic lockdowns and an economic downturn convulsed America police shootings of George Floyd and other African Americans touched off the largest protest movement in U S history At the same time mass shootings soared many states saw unprecedented increases in gun related incidents Churning in the background were a bitter presidential election campaign and counterprotests opposing public health measures and the election result itself Mayors of cities big and small struggled with some of these challenges but Dennis McBride the new mayor of a mid sized mostly White suburb bordered by the majority minority City of Milwaukee called the heartland of the heartland faced them all His city a microcosm of a troubled America teetered on the verge of anarchy while playing a crucial role in the presidential election A City on the Edge is the gripping story of how he and other mayors have steered America s hometowns through a storm of personal and political divisions Though the chaos of 2020 has gradually subsided it is still reverberating in the nation s economy politics and psyche The changes sparked by the events of that historic year continue to vex mayors and their communities Americans and their leaders are searching for a new equilibrium That balance will be found first in our hometowns A City on the Edge offers a path forward   **AI Business for Everyone** Michael T.
