*Homeownership in Hong Kong* Chung-kin Tsang, 2021-05-24 This book studies the cultural framework of the connections between homeownership and social stability in Hong Kong In the post war period homeownership became the most preferable housing choice in developed societies such as Australia Britain Japan Spain and the United States In the financialization era its proliferation aggregated enormous wealth and debt in the housing and mortgage markets affecting social stability by creating inequality and housing unaffordability Hong Kong is the most extreme example of this among developed societies in recent years the city has made international headlines both for its housing problem and its social instability By studying the history of homeownership in Hong Kong over a period of four decades Chung kin Tsang proposes that homeownership is inseparable from the social imagination of the future conceptualizing this framework as hope mechanism This perspective helps trace the connections between House Buying as a hope mechanism one which is central to subject formation life goals and temporal mapping for socially shared life planning and social stability Given its unique approach specifically its use of hope as an analytical category this book will prove to be a useful resource for scholars in economic culture and financialization and Asian Studies especially those working on the cultural sociopolitical and economic history of Hong Kong

When the Crisis Becomes an Opportunity Paola Paoloni, Rosa Lombardi, 2023-03-16 This edited volume analyzes how the COVID 19 crisis could be transformed into opportunities for those organizations that correctly interpret the change adapt their strategies accordingly and increase their chances of success in a post pandemic scenario Through this lens the female role and contribution to recovery are analyzed and discussed in the economic financial and social context Even if many aspects set the COVID 19 crisis apart from the latest global financial crises such as the unusual shutdown of businesses in specific sectors social distancing regulations and general uncertainty sparked by the pandemic the challenges facing all organizations in the current recovery phase can present an opportunity for extraordinary growth and development in Europe The focus of the contributions gathered here is not on counting the damages and losses but rather on monitoring the recovery and on emerging instruments to support national and global economic recovery while paying special attention to women's role in it

Flexible Lives Stefanie Reissner, Michal Izak, 2025-08-07 This geographically and methodologically diverse volume shines the spotlight on a variety of flexible working practices beyond the predominantly

Western perspective and zooms in on the gendered aspects of flexible working The increasing use of flexible work arrangements has decoupled work from time and space making the world of work and home increasingly fluid and challenging to manage The Covid 19 pandemic in particular has been a catalyst for questioning accepted norms of where when and how work takes place This book seeks to explore the impact which this reshaping of traditional modes of working has had on workplace interactions and relationships as well as on managing the boundaries between familial and working lives In this way this collection contributes to a wider dialogue concerning the flexibility challenges encountered by white collar workers which is needed now more than ever This book will be relevant to scholars practitioners and policymakers in the fields of gender studies organizational behavior human resources and labor economics It will be particularly useful for those examining the impact of remote work the future of work organizational culture and the social and economic implications of shifting work practices The chapters in this book were originally published in *Culture and Organization* and are accompanied by an updated Introduction and a new Epilogue
