Public Goods and the Fourth Industrial Revolution Maria Płonka,2022-06-14 The fourth industrial revolution characterized by digitization artificial intelligence and augmented reality and megatrends such as globalization urbanization demographic changes and the knowledge based economy will trigger a series of profound technological economic social and environmental changes that will permanently and irreversibly change the role of the state in meeting social needs Industry 4 0 will also change the type nature and scope of public goods and how they are produced financed delivered and consumed This book redefines the current paradigm of public goods It proposes a model of production and distribution of public goods that acknowledges the participation of entities from the public private and nonprofit sectors The authors argue that these entities would participate in the production financing distribution and consumption of such goods From a theoretical point of view such an inclusive approach involving the expansion of the classical state market dichotomy with new entities including citizens themselves leads to a new conceptualization and approach towards public goods The model assumes shared responsibility subsidiarity and paternalistic libertarianism and it allows the state to create new entities of an educational or fiscal nature while remaining the regulator of public services and distribution Additionally the book analyzes changes regarding the perception of public goods in the era of the fourth industrial revolution across selected sectors such as

healthcare and pension systems education local public goods and public utility services The book is primarily addressed to researchers scholars and students across social and technical sciences and it will also be a useful guide for central and local administration bodies responsible for public policy Chapters 4 5 and 6 of this book are available for free in PDF format as Open Access from the individual product page at www.routledge.com They have been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license *PC AI.* ,1990 *Automation and Remote Control* ,1988
