Next-Level Digital Nomad

Maria Surma Manka, 2018-06-23. The stereotype of a digital nomad is someone young, unmarried, no kids, and no mortgage. It's time to rethink that and take digital nomading to the next level. Maria Surma Manka wanted to live and work abroad as a digital nomad temporarily without uprooting her entire life. No selling the house, no homeschooling the kids. She and her spouse had to keep their day jobs. But she couldn't find any good resources to help guide a typical family on this adventure. So she did it herself, and the result was a workation, a blend of work and vacation that allowed her family to become temporary digital nomads. So far, they've workationed in Spain, New Zealand, and the UK. Next Level Digital Nomad is the resource Maria wishes she'd had. A practical and tactical how-to guide that kick-starts your adventure and saves you dozens of hours of planning. Guidance for thinking through the trickiest questions like asking your employer to work remotely, preparing for the kids' absence from school, and where to find a place to work while traveling. Loads of resources and ideas for creating your own workation. Step-by-step worksheets for efficient planning. Next Level Digital Nomad will give you the real-world tools to live like a digital nomad, even with real-world responsibilities.

How To Be A Digital Nomad

Ida Tash, 2021-04-26. How To Be A Digital Nomad. Learn how you can start work online while traveling the world. Hey fellow reader, I'm Ida, a digital nomad and online marketer. I love travel, and I've been a digital nomad experiencing outdoor travel as well. Meanwhile, I love travel, I love to keep myself girly as much as possible on a budget while traveling. I have learned a lot since the past few years, and I'll share all the things I've learned into this manuscript. Here is a part you'll find inside this book. What is a digital nomad? A digital nomad lifestyle is becoming more of the trend, and this article will tell you what a digital nomad is and the realities of a location-independent business. What is a digital nomad, and why are there so many people who want to work this way? A digital nomad is essentially a person who works for himself. Many work at home; mothers do this and are known as full-time gigs. Others work as freelancers and do things a specific way, like transcribing, editing, proofreading, or programming. However, some digital nomads work for service companies and do things like web design, web programming, accounting, creative writing, or translation. Those who work a digital nomad lifestyle do not work for a company or boss but

instead work for themselves They set their own hours and follow their own rules It is difficult to be self employed in this society because you have to rely on the wills of others and your courage to set up your business However it is not impossible and there are different ways to be self employed which can provide you with more freedom and flexibility while still bringing in some money If you want to work at home then this is the technology which is enabling the change and it is allowing nomads to work from home Companies are recognising the potential of this new method of working and the first areas to embrace the new way of working are the legal ones However it is not just the legal firms and public sector which are looking to employment technology in order to cut costs Almost every type of industry is looking at using technology in order to lower costs and in this way increase profits For example restaurants are using recruitment technology in order to lower salaries and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more Then Scroll up Click on Buy now with 1 Click and Get Your Copy Now *Next-Level Digital Nomad* Maria
