Rea, David K. Irving, 2025-05-21 Producing and Directing the Short Film and Video Sixth Edition is the definitive book on producing and directing short films for the serious film student or beginner filmmaker Its unique two fold approach looks at filmmaking from the perspectives of both the producer and director and clearly explains how their separate roles must work together to create a successful short film or video Through extensive examples from award winning shorts and insightful interviews you will learn about the common challenges these filmmakers encountered during each step of the filmmaking process from preproduction to production postproduction and distribution and the

techniques they used to overcome them The Sixth Edition has been carefully updated to include New in depth case studies of esteemed short films Fresh interviews with the filmmakers integrated alongside the text as well as new images and behind the scenes coverage of production processes Completely revamped sections on cameras distribution and exhibition A new section on technologies related to VR and AR Expanded coverage on health and safety when filming Packed full of advice and tips on the role of both director and producer throughout the entire process this is an essential resource for anyone wanting success on their short film Electronic support material containing useful forms and information on distributors grants and financing sources film and video festivals film schools internet sources for short works and professional associations is available for download [The Ideas That Rule Us](#) Chris Grocott,2024-10-07 It may seem surprising that the economic choices we make in society are often determined by ideas rather than scientific evidence or financial resources The consequences of such choices are often stark such as the austerity policies which eroded our ability to withstand crises like the Covid 19 pandemic This book explores the ideas that rule how our economy works how government operates and how workers organise A small number of historical economic ideas remain stubbornly prevalent and powerful today However they are largely based on questionable assumptions about human behaviour and unproven theoretical ideas about economics They were founded within the realms of philosophy and politics rather than hard science This book illustrates how politicians have selectively borrowed convenient economic concepts in order to promote and defend policies which entrench and escalate inequalities and other structural problems This accessible book invites readers to question the ideas that rule us and explore the challenges facing society It invites progressive thought about how we need to urgently organise action for the future

Youtube in the Language Classroom Sebastian Altenhoff,2011-02 Seminar paper from the year 2009 in the subject Didactics for the subject English Pedagogy Literature Studies grade 1 0 University of Duisburg Essen Anglophone Studien language English abstract According to Ellis learning a language means making use of the language in R schoff Wolff 1999 54 This not only implies the claim of free spontaneous communication but also of dealing with and of experiencing the target language as such The claim of experiencing the target language in the language classroom leads to a growing interest in the quality of the materials used According to Wolff 1998 any kind of learning no matter whether verbal or non verbal has to be embedded in a rich learning environment that has not been reduced concerning its complexity Authenticity is thus one of the main criteria in order to evaluate the quality of materials This criterion applies to all materials such as literature that have not been changed for the purpose of teaching and learning of course In this thesis however using authentic video in the language classroom will be considered and analysed according to its didactic benefits Integrating video in the language classroom does not necessarily mean having to watch and to analyse a whole film of ninety minutes Thanks to Web 2 0 applications such as YouTube the accessibility of short video clips advertisements or film excerpts has become very simple Because of the growing popularity of this webpage and of integrating Web 2 0 applications in the learning environments in
