

# How To Do Affiliate Marketing in 4 Steps

## STEP 1

Create an online presence and define your niche.

Before promoting products, you must have a platform and create online content, such as social media posts and/or a blog.

Selecting a niche allows you to focus on one specific market and better target your audience.

## STEP 2

Research how you stand out from your competitors.

This process will help you figure out what your competitors are doing and how you can stand out.

It can also help you determine which products to promote and which niche to work with.

## STEP 3

Define which platforms and affiliate networks give the most returns.

If you're looking to grow your business, consider using a variety of platforms to promote your brand.

When choosing an affiliate network, consider: cookie duration, competition, the merchant's reputation, brand alignment, fees, and the level of support.

## STEP 4

Decide on what to promote and optimize your site's content.

The products you choose to promote must align with your brand and values.

High-quality web content can help you rank higher on search engine results pages (SERPs). The more traffic you get, the more chances you have of making a sale.

Affiliate marketing is a type of performance based marketing in which a business rewards one or more affiliates for each visitor or customer brought by the affiliate s own marketing efforts The industry has four core players the merchant also known as retailer or brand the network that contains offers for the affiliate to choose from and also takes care of the payments the publisher also known as the affiliate and the customer The market has grown in complexity resulting in the emergence of a secondary tier of players including affiliate management agencies super affiliates and specialized third party vendors Affiliate marketing overlaps with other Internet marketing methods to some degree because affiliates often use regular advertising methods Those methods include organic search engine optimization SEO paid search engine marketing PPC Pay Per Click e mail marketing content marketing and in some sense display advertising On the other hand affiliates sometimes use less orthodox techniques such as publishing reviews of products or services offered by a partner Affiliate marketing is commonly confused with referral marketing as both forms of marketing use third parties to drive sales to the retailer However both are distinct forms of marketing and the main difference between them is that affiliate marketing relies purely on financial motivations to drive sales while referral marketing relies on trust and personal relationships to drive sales
