This book re-examines the processes, practices, and mechanisms of innovation from an anthropological perspective, offering a theory of innovation as a dynamic multidimensional system. It uses methods and stories across a broad arc of time, place, social, and cultural context and subject matter. The chapters explore the intersection of virtual, local, and global dynamics and deepen our understanding of aspects and dimensions of innovation that challenge common perceptions, particularly in business and organizational environments. The approach aims to situate innovation in an integrated view of human and non-human ecologies and to create common ground for a new form of research and practice. *Global Business* Yongsun Paik, Dong Chen, William Newbury, Dan Prud'homme, 2025-09-18 This textbook is designed to help students recognize and analyze key issues in global business by bridging theory with real-world applications.
