The International Conference on Emerging Trends in Business Management ICETBM2023 aims to bring together leading academicians, practitioners, researchers, and students to exchange their views, knowledge, experience, and insights on the emerging trends in business and management. The conference theme for year 2023 is Business Intelligence and Analytics as Drivers for Digital Transformation. Organizations are adopting a data-driven approach to identify new business opportunities, serve customers better, increase sales, improve the efficiency of operations, and more. The amount of data generated, captured, copied, and consumed worldwide is growing rapidly due to increased use of the internet, mobile phone, and social media. In today's modern corporate environment, business intelligence and analytics have emerged as indispensable tools for improving decision-making, facilitating the execution of major initiatives, and guiding the overall company strategies. Business Intelligence and Analytics enables organizations to develop new innovative business models and approaches in the era of digital transformation. The role of analytics in solving business problems has increased manifold in recent years. Researchers, academics, and practitioners are paying more attention because of the increasing benefits achieved using business analytics. The conference will be held in SSN School of Management, Sri Sivasubramaniya Nadar College of Engineering, Kalavakkam, Chennai, India, on 24th-25th February 2023 and will be a hybrid event. This conference will offer invited talks by experts and paper presentations from leading academicians and industry speakers to share new ideas, research insights, recent innovations, trends, and challenges faced in the field of Business and Management.

Cyber Careers Pee Vululleh, 2022-02-18 The approach taken in this book emphasizes the basics of information technology and helps students decide whether to pursue an information technology career. Most students fail to pursue an IT career because of their limited knowledge; sometimes no knowledge about the area. Similarly, most students pursuing a career in IT do not research the field before their pursuit. This book is purposely designed for students in this category. The book may be offered as a required text for an elective or core

course to all bachelor s degree students regardless of specialization Compared to other textbooks this text guides students pursuing or wanting to pursue an IT degree career Most students often begin their study of IT without knowing the outside and inside of the area Most of these students can change their minds to pursue a different career path after spending several semesters of studies a waste of their time If students are taught from the onset about what an IT career entails and what it takes to become successful it will significantly help students and not waste their time This book addresses the issue
