*Games and Gamification in Market Research* Betty Adamou, 2018-11-03 Games are the most engaging medium of all time they harness

storytelling and heuristics drive emotion and push the evolution of technology in a way that no other platform has or can. It's no surprise then that games and gamification are revolutionizing the market research industry offering opportunities to reinvigorate the notoriously sluggish engagement levels seen in traditional surveying methods. This not only improves data quality but offers untapped insights unattainable through traditional methods. Games and Gamification in Market Research shows readers how to design Research Games and Gamified Surveys that will intrinsically engage participants and how best to use these methodologies to become and stay commercially competitive. In a world where brands and organizations are increasingly interested in the feelings and contexts that drive consumer choices, Games and Gamification in Market Research gives readers the skills to use the components in games to encourage play and observe consumer behaviours via simulations for predictive modelling. Written by Betty Adamou, the UK's leading research game designer and named as one of seven women shaping the future of market research, it explains the ways in which these methodologies will evolve with technologies such as virtual reality and artificial intelligence and how it will shape research careers. Alongside a companion website, this book provides a fully immersive and fascinating overview of game-based research.

Luxury companies today cannot depend on their reputation or their creativity alone to remain resilient; rather they require the ability to be ambidextrous to explore new trajectories for future growth and exploiting their iconic values. In past decades the industry has shifted from product to customer centric and forced companies to adopt new strategies and approaches to succeed. This includes the adoption of digital platforms such as ecommerce, social media and mobile enabled tools to

continually elevate customer experience In addition new business models have emerged to address growing pains particularly in inventory issues over manufacturing and sustainability Brands today are forced to adopt evolution through innovation that is anchored by new values without compromising their DNA Based on in depth research and interviews with CEOs from leading luxury companies Lojacono and Pan show how companies can hedge their risks and remain resilient in times of change
