Scott Gottlieb, 2021-09-21 NEW YORK TIMES BESTSELLER *Uncontrolled Spread* is everything you'd hope a smart and insightful account of what happened and currently the best guide to what needs to be done to avoid a future pandemic. *Wall Street Journal* Informative and well paced. *The Guardian* An intense ride through the pandemic with chilling details of what really happened. It is also sprinkled with notes of true wisdom that may help all of us better prepare for the future. Sanjay Gupta MD chief medical correspondent CNN Physician and former FDA commissioner Scott Gottlieb asks Has America's COVID 19 catastrophe taught us anything? In *Uncontrolled Spread* he shows how the coronavirus and its variants were able to trounce America's pandemic preparations and he outlines the steps that must be taken to protect against the next outbreak. As the pandemic unfolded Gottlieb was in regular contact with all the key players in Congress the Trump administration and the drug and diagnostic industries. He provides an inside account of how level after level of American government crumbled as the COVID 19 crisis advanced. A system wide failure across government institutions left the nation blind to the threat and unable to mount an effective response. We'd prepared for the wrong virus. We failed to identify the contagion early enough and became overly reliant on costly and sometimes divisive tactics that couldn't fully slow the spread. We never considered asymptomatic transmission and we assumed people would follow public health guidance. Key bureaucracies like the CDC were hidebound and outmatched. Weak political leadership aggravated these woes. We didn't view a public health disaster as a threat to our national security. Many of the woes sprung from the CDC which has very little real time reporting capability to inform us of Covid's twists and turns or assess our defenses. The agency lacked an operational capacity and mindset to mobilize the kind of national response that was needed. To guard against future pandemic risks we must remake the CDC and properly equip it to better confront crises. We must also get our intelligence services more engaged in the global public health mission to gather information and uncover emerging risks before they hit our shores so we can head them off. For this role our clandestine agencies have tools and capabilities that the CDC lacks. *Uncontrolled Spread* argues we must fix our systems and prepare for a deadlier coronavirus variant a flu pandemic or whatever else nature or those wishing us harm may threaten us with. Gottlieb outlines policies and investments that are essential to prepare the United States and the world for future threats.
