Prof.Izhar,2015-08-09 *Employee Experience Design* Dean E. Carter,Mark Levy,Samantha Gadd,2026-01-27 How to harness Employee Experience Design to attract and retain the best talent In Employee Experience Design How to Co create Work Where People and Organizations Thrive three highly experienced leaders explain how businesses can use Employee Experience Design to create workplaces that deliver better business results by first focusing on meaningful employee experiences Many leading organizations worldwide have successfully implemented Employee Experience Design but until now there has been no comprehensive book that outlines exactly how to do it Employee Experience Design delivers a proven step by step method that leads to more engaged and productive employees which in turn leads to superior organizational performance With inspiring stories from leading brands like Airbnb Patagonia and many others this book addresses challenges businesses face such as We all know that the world of work is continuously evolving and unpredictable Many leaders are not sure how to make changes to address new unexpected challenges Employee Experience Design is a system leaders can use to meet those challenges Employee Experience Design is much more than a rebrand of traditional HR practices It s a shift in mindset that HR and the organization can use to navigate highly competitive markets and ones with thin profit margins Many organizations are drowning in policies and initiatives Employee Experience Design is a way to reduce that burden while delivering better results both for employees and for the bottom line Employee Experience Design is a timely and practical guide for business leaders executives and managers who want to recruit the best talent engage and retain those people and deliver impressive business results *The Creative Commuter* Ethan Patel,2024-10-25 The Creative Commuter tackles the compelling challenge of transforming daily commute time averaging 54 minutes per day for Americans into a valuable period for personal and professional growth This innovative guide introduces the concept of temporal optimization showing readers how to reclaim approximately 225 hours per year equivalent to nine full days through strategic planning and purposeful activity during transit time The book s research based approach combines insights from productivity studies neuroscience and behavioral psychology to create a practical framework for maximizing commute periods It divides transit time into three distinct categories active learning creative development and strategic planning each matched to specific commuting scenarios and cognitive states Through case studies of successful professionals and data from over 1 000 survey participants the book demonstrates how different commuting environments whether driving using public transport or walking can be optimized for specific activities Moving from theoretical foundations to practical application the text progresses through three main sections the science of transit attention and productivity frameworks for activity commute

matching and specific implementation strategies What sets this guide apart is its focused approach to the unique challenges of commute time including safety considerations for drivers and adaptable strategies for various transit modes The book acknowledges modern workplace evolution and provides flexible solutions supported by a mobile app companion for tracking progress and suggesting appropriate activities based on individual commuting patterns

Production Urbanism Dongwoo Yim,Rafael Luna,2021-09-27 The Industrial Revolution caused a paradigm shift from an agrarian economy to a manufacturing economy giving birth to the industrial city City became synonymous with a concentration of factories causing unfiltered scenes between centres of production and urban dwellings The corrupted image of the city ultimately led to the displacement and separation of production away from residential zones in the 20th century However new innovative manufacturing technologies are allowing a coexistence between factories and dwellings through hybrid typologies that blend production back into the urban fabric This AD issue discusses the implications of the re emergence of production as an architectural and urban agenda through hybrid models that engage a new socioeconomic shift Given the contemporary circumstances of a global pandemic affecting global supply chains it is necessary to deliver a vision for a new productive urbanism that allows autonomous circular economies to flourish Our 21st century cities have an obligation to explore a new industrial revolution of shared economies that optimise the use of the legacy systems infrastructure and building stock Yet it is ultimately up to architecture to take arms in delivering new typologies Contributors Frank Barkow Michele Bonino and Maria Paola Repellino Kristiaan Borret Vicente Guallart Tali Hatuka Doojin Hwang Yerin Kang and Chihoon Lee Kengo Kuma Wesley Leeman Scott Lloyd and Alexis Kalagas Winy Maas DK Osseo Asare Marina Otero Verzier Nina Rappaport and Shohei Shigematsu Featured architects Barkow Leibinger DJH Architects Goldsmith Kengo Kuma Associates MVRDV OMA and TEN
