Monteverdi's Tonal Language Eric Thomas Chafe,1992 Claudio Monteverdi's sixty year compositional career spans one of the most crucial junctures in Western music Laying the groundwork for harmonic tonality the pervasive musical language of Western culture until the twentieth century Monteverdi's break with the self contained harmonic world of the Renaissance and his confident assertion of human rationality and order through music was a crucial contribution to the emergence of the Baroque style Monteverdi's Tonal Language is a provocative new examination of the theoretical issues

surrounding the emergence of early seventeenth century tonality combined with systematic analysis of a wide range of Monteverdi's secular works Eric Chafe argues that the composer's music was rooted in a strong sense of musical logic and a secure grasp of tonality combined with Monteverdi's assertion that music should be dominated by allegory Chafe offers a new framework for understanding the complex historical style and systematic features of the tonal language of Monteverdi's time and the composer's particular version of it Building on Carl Dahlhaus's analysis of emerging tonality in Monteverdi's madrigals Chafe expands the scope of the modal hexachordal system rooted in the composer's work at the time of his fourth and fifth madrigal books In addition to covering text music relationships of a large and representative amount of Monteverdi's music Chafe discusses several unexplored areas crucial to any understanding of the composer's tonal language The two madrigals *Cor mio mentre vi miro* from Book Four and *O Mirtillo* from Book Five illustrate the theoretical features of early seventeenth century tonality Chafe examines the pronounced sense of tonal clarity that distinguishes the Fourth Book of Madrigals and he articulates the tonal styles Monteverdi used as organizing criteria in the Fifth Book In subsequent chapters he demonstrates how the characteristic devices of Orfeo emerge as basic properties of the modal hexachordal system and discusses Monteverdi's creation of ordered reality in *Il Ballo delle Ingrate* and the *Lamento d'Arianna* He further argues that the Sixth Book symbolized the interaction of polyphonic madrigal and monody and demonstrates convincingly that the Seventh Book was a milestone in Monteverdi's creative development assuming the characteristics that marked his later tonal style In the Eighth Book the composer set forth a manifesto for the allegorical nature of Baroque music *Il ritorno d'Ulisse in patria* is a mature working out of the potential of tonal allegory Finally in the last three chapters Chafe discusses the tonal allegorical framework aspects of musical characterization and questions of authenticity in Monteverdi's last opera *L'incoronazione di Poppea* BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
