Artful AI in Writing Instruction Brett Vogelsinger, 2025-05-14 Discover strategies to use AI thoughtfully in every stage of the writing process without compromising creativity or critical thinking Feeling conflicted about integrating artificial intelligence AI into your writing instruction You're not alone In a world where AI generated text can seem like a writing teacher's enemy incorporating it into writing instruction may feel like an act of betrayal The advent of generative AI might feel like one more thing eroding students' capacity for deep thinking *Artful AI in Writing Instruction* offers strategies and lessons for middle and high school teachers to harness AI in a positive way integrating it into the writing process and evaluating the ethics of its usage Written by a full-time high school teacher Brett Vogelsinger the book focuses on evergreen principles and ideas rather than specific AI tools providing concrete steps and lessons that teachers can implement without being technology experts Acknowledging the varying perspectives of teachers on AI in writing instruction from skepticism to enthusiasm Brett offers a human-centered, considered and ethical approach to using generative AI in the classroom Demonstrating how AI can be used artfully in the classroom to enhance students' writing skills and foster reflection on the writing process this book Provides standards-aligned lessons that detail how AI can support instruction and assist students at each step of the writing process from prewriting through publishing Emphasizes how to use AI tools to mine authentic human ideas and enhance creativity in the classroom Aims to help teachers build a healthy relationship with AI technology and use it thoughtfully in their writing instruction Includes chapter features such as quotes from esteemed writers real teacher and student voices cautionary notes and Bot Thoughts entries of example AI output *Artful AI in Writing Instruction* is a book that explores technology with humility critiquing its drawbacks and harnessing its strengths in an effort to guide teachers on how to use AI to help students grow their thinking and their skills rather than bypassing that development

How to Enhance Learning Efficiency When Online Learning is Popular and Indispensable: Theory, Research and Practice Rong Lian, Chang Liu, Juzhe Xi, 2024-07-17 Online learning has become more and more common globally whether for comfort adapting to work hours or just having the freedom to study from anywhere And now under the coronavirus pandemic as people are having to stay at home it has become more important than ever Although the popularity of wireless network and portable smart device makes it possible for people to acquire and learn knowledge anytime and anywhere it does not necessarily mean an increased learning performance Relevant research in cognitive science has revealed possible limitations in online learning For example the knowledge acquired through online learning tends to be fragmented and lacks guidance for integrated thinking among different subjects which makes it difficult for learners to form a systematic knowledge structure Learners may experience cognitive overload metacognitive illusion and low learning efficiency in self-regulated learning It follows that in the post-COVID-19 era online learning puts forward new requirements and challenges to the contemporary students not only to their

learning strategies but positive character traits in learning Most of the current learning theories were developed in the early 20th century and may not fit in well with the current situation then possibly leading to inefficient learning and increased learning burden Therefore it is necessary and important to reexplore the influencing factors and mechanisms that affect the learning efficiency of students at all levels nowadays based on which we could construct a theoretical model of efficient learning model
